MARIO MADNESS

In-depth Review for
Super Mario Bros. 1 & 2

GAME BOY

Tetris, Super Mario Land,
and many more . . .

Now you are playing with
portable power!

THE LEGEND OF ZELDA THE ADVENTURE OF LINK

Guides to both classic
adventures of Hyrule's
favorite hero and
princess, Link and
Zelda.

Plus lots of maps,
hints, tricks and strategy
tips for all of your favorite
NES AND Game Boy
games . . .

WELCOME!

Hey, Kids! It's me, Mario! Listen closely, because there's something I just can't wait to tell you about!

It's the Club Nintendo Classic Issue, and you're holding it in your hands right now! As you know, by joining Club Nintendo, you receive Club Nintendo's magazine 6 times a year. That magazine gives you loads of information, strategy tips, special tricks, and news about all the new games. The only problem is that there are so many new games coming out all of the time, we can't always go back and show you the classic games . . . you know, the ones that really make the NES great!

That's why we decided to do this special edition, so you can get all the great tips and tricks for the Legend of Zelda and Zelda II: The Adventure of Link, Metroid, and of course, Super Mario Bros. and Super Mario Bros. 2, starring yours truly. Plus there are some real "classic" strategies and secrets in the special "Tips and Tricks" section.

The other big news for game players like you is Nintendo's fantastic new portable Game Boy! Now you CAN take it with you! All the excitement of the NES right in the palm of your hand. So, even though the Game Boy is new, we included the games that are sure to become "classics" for Game Boy, too! There's my new adventure, Super Mario Land, plus other greats like Tetris and Castlevania! And there's Golf, and Pinball . . . phew, I can hardly remember them all. Just check out the next page for all the details about what's inside.

That's all for now! Sounds like Luigi could use some help with that leaky tap the Princess has been complaining about. See you soon . . .

CLUB NINTENDO CLASSIC 3

**GAME
BOY™**

Hardware AND Accessories

SUPER MARIO LAND™

THREE MARIOS!!

SUPERBALL MARIO

To really move through Super Mario Land, you must help Mario to become Super Mario by finding a Super Mushroom. Find a Fire Flower, and Mario becomes Superball Mario.

MARINE POP

(Submarine)

Mario can travel anywhere he likes in this speedy torpedo-armed submarine. It appears in Area 3 of World 2. Fire a series of torpedoes with the A button or just one with the B button.

SKY POP

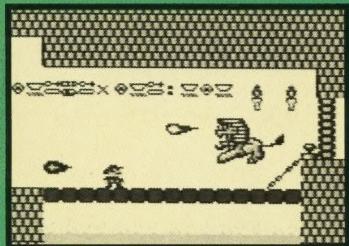

(Airplane)

Mario flies through the air in this special one-seat airplane. Take on the enemies by using the A button to fire a series of missiles or the B button to shoot just one at a time.

WORLD 1

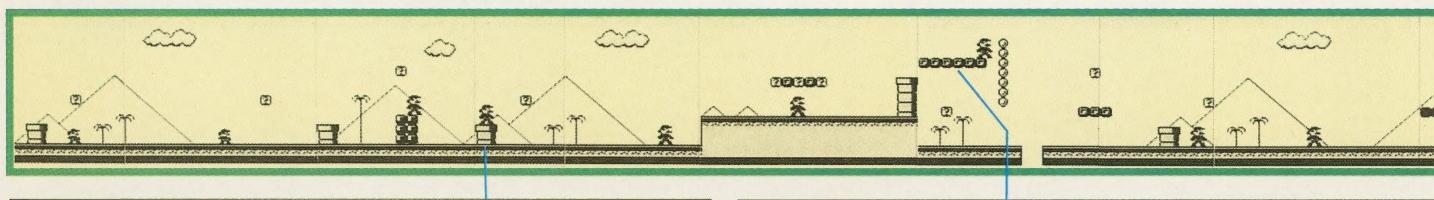

BIRABUTO KINGDOM

King Totomesu is the boss of The Birabuto Kingdom, which looks a lot like Egypt. Mario will see his share of Pyramids and Sphinxes, but remember that this is no sightseeing trip.

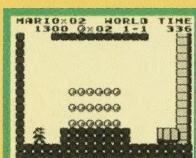

MARIO'S ADVENTURES START HERE

Here is a secret map of Area 1. Be sure to study this carefully. Knowing what to expect in the passages and caves that lie ahead will give Mario a big advantage over King Totomesu's goons.

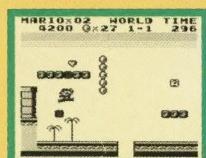

A ROOM FULL OF COINS

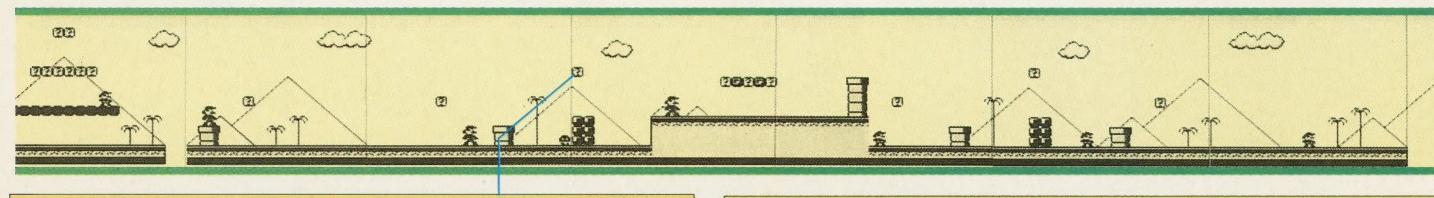

As you help Mario find his way through the giant pipes, look for coins. Some places have more than others, so pick up as many coins as possible to earn extra lives.

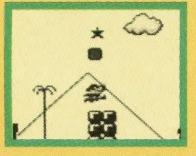

EARN AN EXTRA LIFE WITH THE HEART!!

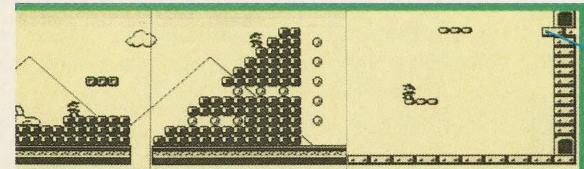

Step right up onto the lower Mystery Block and jump up to hit the third block above you. Now you've released a 1-UP Heart! Take it and give yourself an extra life . . . you deserve it!

GRAB THE STAR AND RUN RIGHT THROUGH THEM!

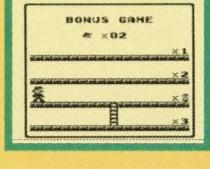

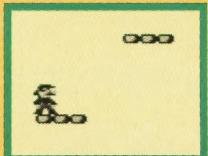

Collect a star by hitting the Mystery Block and become INVINCIBLE MARIO!! You don't have a lot of time, so make tracks while nobody can touch you.

A BONUS WAITS FOR YOU!!

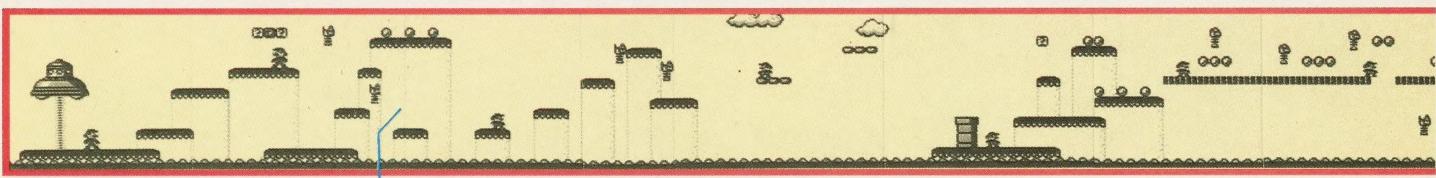

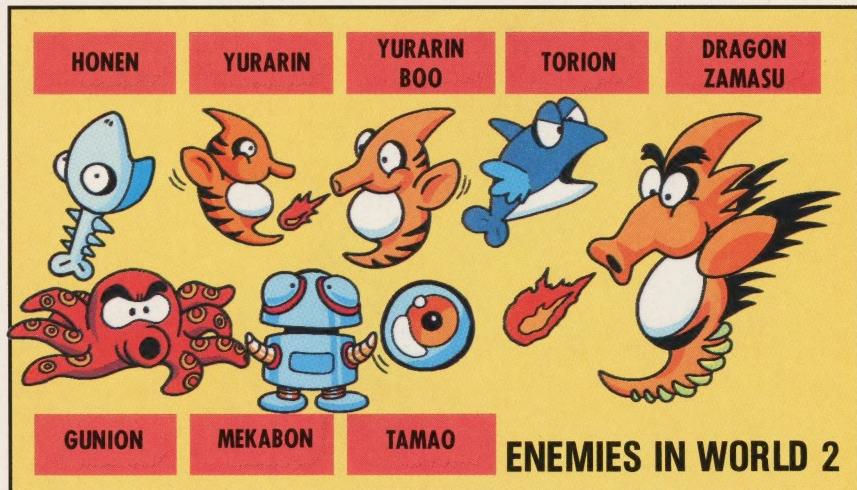

Congratulations!! You made it to the end of the first stage. Of course, there are more kingdoms to conquer! Get ready now for the exciting challenges that lie ahead by hopping up to the top door.

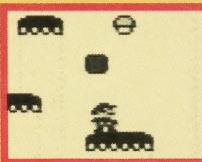

If you make it through the door at the top of the screen, you have a chance to win up to THREE EXTRA LIVES! Good luck! You are now ready to bravely take on the greater dangers of World 2!!

WORLD 2 MUDA KINGDOM

This kingdom is a mysterious island in the sea. Be careful not to fall into the water! Your enemies are stronger here than in World 1, so be prepared to do battle! At the end you must fight the boss of Muda Kingdom, the fire spitting Dragon Zamasu!

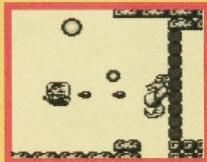

INVISIBLE MUSHROOM

Release an invisible block to get a Mushroom by jumping at the left side of the low platform above. It might take a few tries, but you can do it!

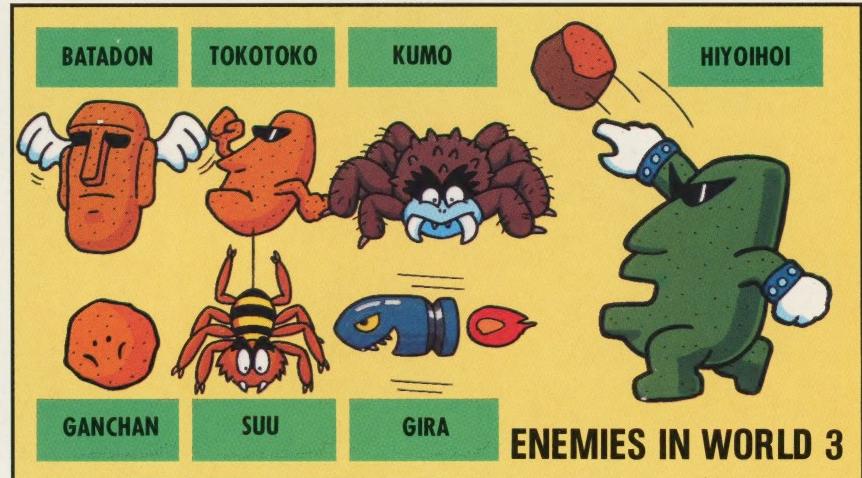

IT'S A SHOOTING GAME

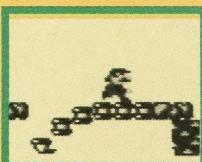

In World 2-3, climb into the Marine Pop Sub and fight your enemies by shooting torpedoes. Make sure to watch out for the man-eating fish called Torion. They'll attack you kamakazi-style in groups of three. Defeat them easily with one good shot from your torpedo arsenal and then move on to the Boss!

WORLD 3 EASTON KINGDOM

The boss of this Kingdom is Hiyoihoi, direct descendant from a Tokotoko statue. Watch out when he charges and throws Ganchan boulders at you. Also, watch out for Gira, a superfast missile that seems to come out of nowhere.

HURRY PAST THE DROPPING PLATFORM!!

This platform drops as soon as you step on it! You'll have to keep moving and jumping as fast as you can by pressing the B button. Move quickly to make it to the other side!

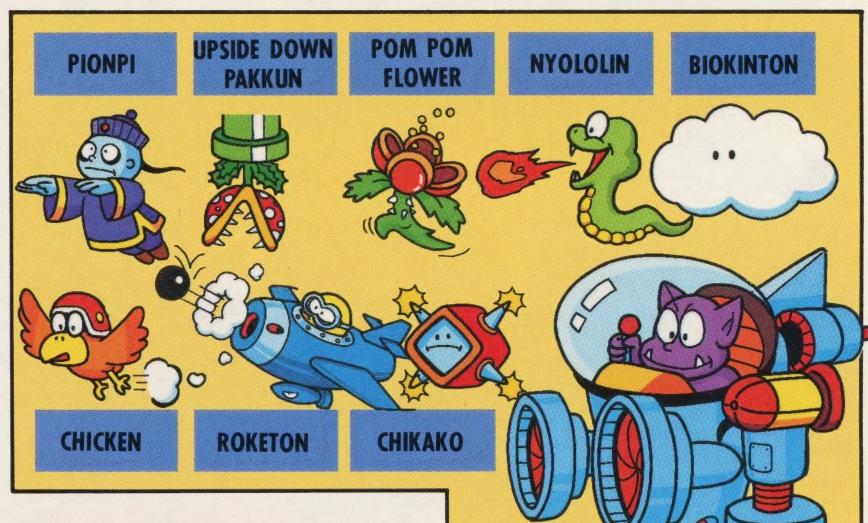

LOOK OUT BELOW!

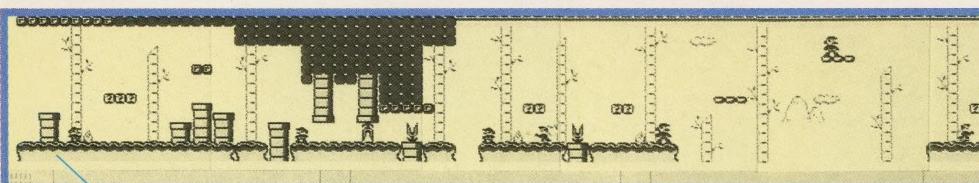

Hiyoihoi will keep throwing rocks at you. If you are Super Mario or Superball Mario, you can charge right by, but if not, you'll have to avoid the rocks by jumping on them one after another to get by Hiyoihoi.

WORLD 4 CHAI KINGDOM

This is the last kingdom. Here, you must face the boss, Biokinton. In Chai, there are many strong enemies. Watch out for Pionpi because he keeps coming back to life no matter how many times you jump on him. Use the Sky Pop in World 4-3.

WORLD 4-1

THE BIG BOSS

MYSTERIOUS SPACE MAN
TATANGA

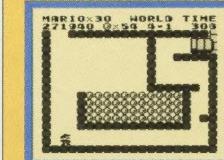

ENEMIES IN WORLD 4

IT'S THE FINAL WORLD: CHAI KINGDOM

IN WORLD 4-3, MARIO TAKES OFF IN SKY-POP!

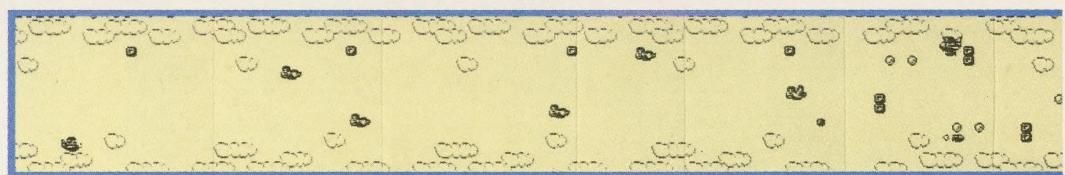

Now you've made it to the last stage! When in Sky Pop, keep firing missiles as fast as possible, and be sure to keep a watchful eye out for that wacky warbird Chicken ...

THE VERY FIRST PIPE LEADS TO A COIN ROOM!

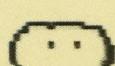

Be sure to use the control pad to fall to the right side so that you can collect the coins without falling to the bottom of the room. Once on the floor, you will not be able to get any more coins.

WORLD 4-3

THE BOSS OF CHAI KINGDOM **BIOKINTON**

The boss of the Chai Kingdom is a coward and will hide inside a cloud. Up to now, no one has ever seen what he looks like, but Mario will settle that question once and for all.

When
you
defeat
him...

THE VERY LAST BOSS **TATANGA**

Finally Mario has reached the big boss, but the tough part is still to come. TATANGA is bound and determined to keep Daisy for himself, and Mario will have to find a way to tackle Tatanga's war robot, PAGOSU, as well! Good luck Mario ... you'll need it!

PRINCESS DAISY IS WAITING FOR YOU!

MARIO
HELP
ME!!

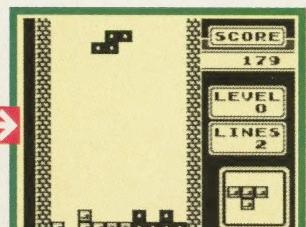

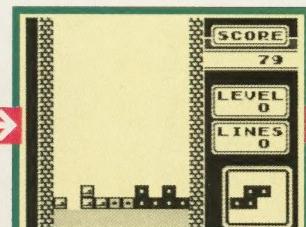

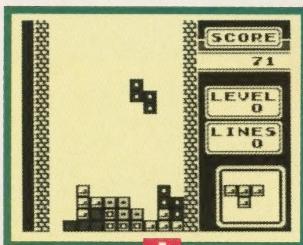

TETRIS™

COMBINE "TETRAD" BLOCKS TO DELETE LINES

Seven different Tetrad shapes fall from the top of the screen. If you plan your strategy well and quickly move the Tetrad into place by sliding and turning them, you'll be on your way to becoming a TETRIS MASTER! When you fill in a complete line of blocks, it disappears. The more lines you get, the faster the blocks fall! Don't let them pile to the top, or your game will be over!

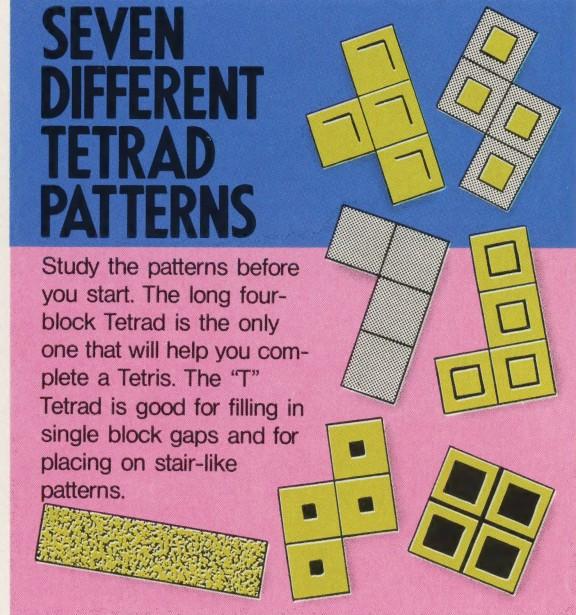

WATCH OUT!!! ...YOU COULD BE TETRISIZED!

TETRIS is the amazing strategy game invented by Soviet game designers. Don't be surprised if you become "TETRISIZED" and want to play every chance you get! You're not alone! The game is already a favourite with Nintendo fans around the world! The Game Boy version of Tetris features a "Video Link" for two players to compete against each other. The rules are simple, so go to it! We guarantee, IN NO TIME YOU'LL BE HOOKED!

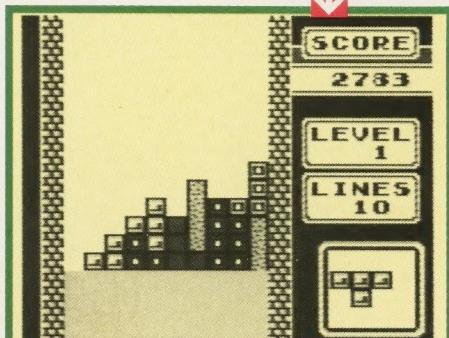

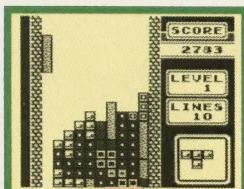

SEVEN DIFFERENT TETRAD PATTERNS

Study the patterns before you start. The long four-block Tetrad is the only one that will help you complete a Tetris. The "T" Tetrad is good for filling in single block gaps and for placing on stair-like patterns.

SCORE MORE... SHOOT FOR A TETRIS!!!

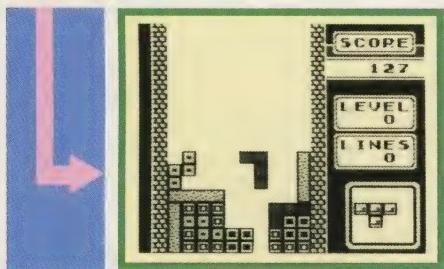

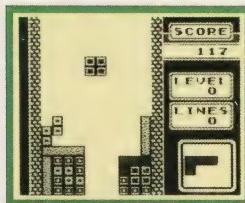

The more lines you complete, the more points you make. Score the BIG ONE by completing four lines at once. Drop in the four-block bar, and presto! It's TETRIS TIME!

TIPS FOR THE EXPERT: BUILDING THE UNBEATABLE SCORE

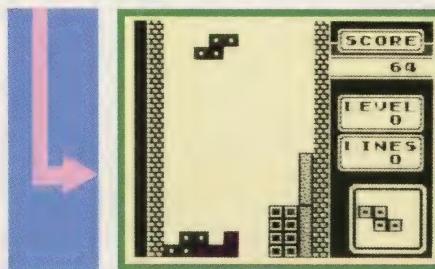

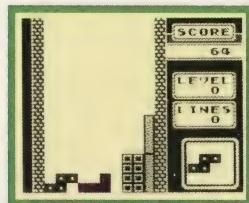

KEEP TRACK OF WHAT'S NEXT

One of the keys to Tetris is to remember that, while the Tetrad appear one at a time, there are always more Tetrad to follow. Before deciding where to place the Tetrad that is falling, look at the lower right-hand box to see what's coming next.

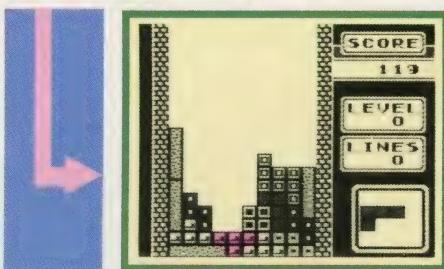

SLIDE THE TETRAD BEFORE IT SETTLES

You've got to work fast to slide each Tetrad into place while it's still falling. If you're keeping your eyes open for a good fit, most of the time you'll be able to slip right in without leaving a gap. But not always... that's where the next step comes in handy.

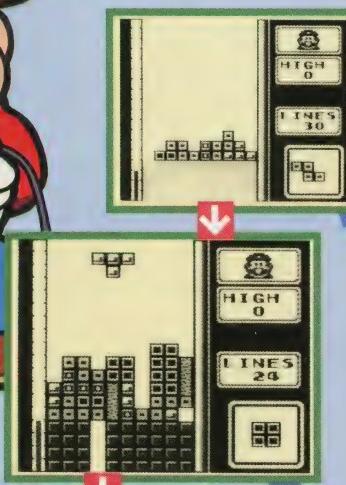

TWIST, TURN AND MAKE THEM FIT

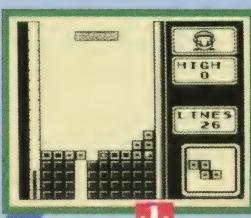

Not only can you slide pieces into place, but you can also twist them into tight areas. You'll have to know what space a piece will occupy when it is turned and make sure that there are no blocks in that space. Then, twist it quickly!

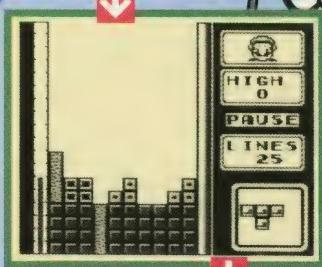

TWO CAN PLAY WITH VIDEO LINK

Now you can challenge your friend on Tetris by Video-linking two Game Boys. For every two lines you complete, one line is added to your opponent's screen!

Of course, your opponent can do the same thing to you! But don't worry, you can get your revenge by burying him with a Tetris and adding four lines to his screen... and try not to laugh when he screams!!

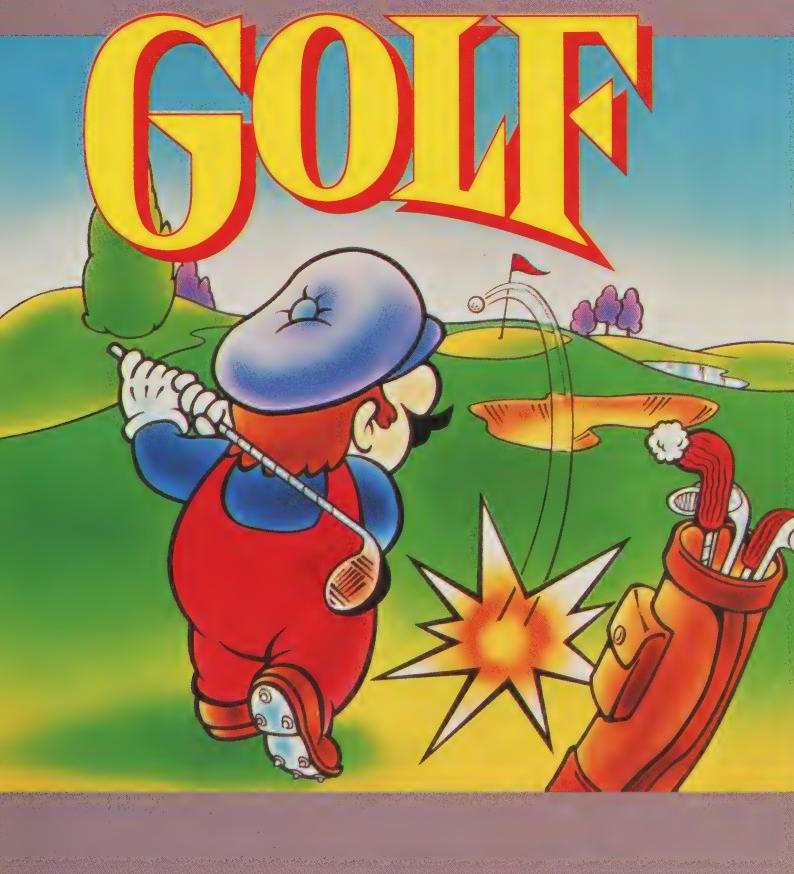

LOSE!

To win at Video Link Tetris you must either complete thirty lines of blocks, or force your opponent to the top of his screen by making plenty of two, three and four line completions.

WIN!!

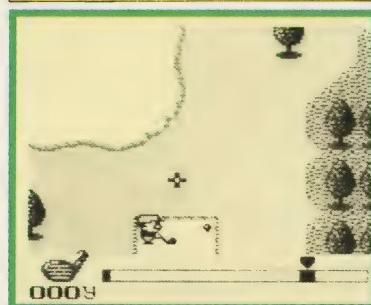

THREE SCREENS GIVE YOU THE REAL FEELING

OF GOLF

This game has three types of screens: a PLAY screen, a HOLE screen, and a GREEN screen. Push the A Button to display the shot direction indicator. Now you can control your shot by choosing the strength you want to hit it, and the direction you'd like to go... to the left for a slice or to the right for a hook. By pushing the B Button, you'll see the entire map of the hole and green.

PLAY SCREEN

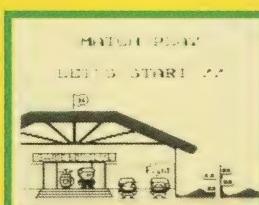

Decide the direction of your shot with the control pad key. The bottom of the screen shows the number of strokes on this hole, your score, the distance from the ball to the cup, the wind direction and velocity, ball status, and the club you've chosen. Picking the right club is critical!

MATCH PLAY

If you connect two Game Boys using the Video Link cable, you can enjoy 2-player Match Play. In order to do this, you'll need the following: 2 Game Boys, 2 Golf game paks, and 1 Video Link cable. A winner is decided for

each hole, so start practicing now for the big match!

THE GREATEST VIDEO GOLF GAME EVER

Now you can play Golf with Game Boy! Challenge two exciting 18-hole courses and experience video Golf in a way you've never seen it before! Choose your club, check the wind conditions and you're ready to tee off!

Avoid sand and water traps, choose your club carefully, avoid those nasty trees, and you'll be shooting like a pro in no time. But as they say on the tour, "Drive for show, putt for Dough." Without a steady hand on the putting green, you'll never really get the great scores. Well, see you on the fairway.

TWO COURSES TO PICK!

JAPAN COURSE

Compared to the USA Course, the JAPAN Course is simpler and easier. Practice on it to build up your skills before you challenge the USA Course.

USA COURSE

The USA Course is tougher and has a lot of trees. If you go out of bounds, you will be given a one-shot penalty, so aim true.

HOLE SCREEN

GREEN SCREEN

SCORE CARD

Press the START Button while the PLAY screen is showing to see your scorecard.

PINBALL

Revenge of the Gator™

HERE IS A LOOK AT THE SCREENS

The Main Screen consists of 4 smaller screens, A, B, C and D. When you shoot the ball into action, it comes out the upper corner of the C Screen and goes into the D Screen through the center flippers. You must go through the door in order to get to the A and B Screens.

B SCREEN

You can get here from the C Screen. From here you can go to the A Screen or to the Bonus Stage.

C SCREEN

This is the where the action begins. You can play the slot machine here or go to the B Screen.

D SCREEN

Stuff the ball into the center Gator's mouth and go to Bonus 1 or C screen. Don't fall, or you're Gator food.

DEAD-HEAT WITH 66 ALLIGATORS!!

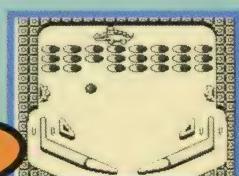

Check out this fantastic version of video pinball for Game Boy. Lots of bells and buzzers sound off in stereo, while the silver ball weaves in and out of the range of jaw-snapping, metal munching alligators. With lots of bonus stages, fast-action, and crazy surprises, this is by far the best video pinball game ever! Pinball Wizard or Gator bait, it's all up to you!

A SCREEN

This is the most difficult screen to get to. You can either earn extra balls here or warp to Bonus 3.

BONUS STAGE

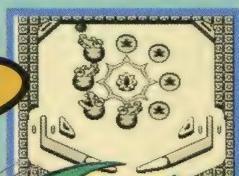

You can play in three different bonus stages. Earn lots of extra points by hitting Gators with the ball. When they stick their heads up to see out from their Gator holes, that's the time to let 'em have it! Just look out for hungry 'Gators.

1

2

3

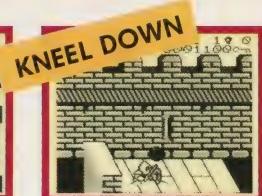

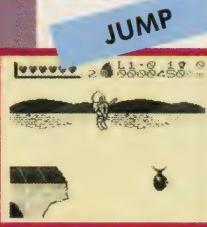

ONLY YOU CAN RESCUE THE CROWN PRINCESS

You are Kuros, one of the bravest warriors, and the only one to successfully challenge the dark powers of the evil Wizard Malkil! Your task is to enter the Fortress of Fear and rescue the fair Princess Elaine. The Princess is held captive by Malkil, who keeps her under his spell with his overpowering magic. Kuros must go through five stages before he reaches the final battle with Malkil.

YOU ARE KUROS, THE BRAVE

WIZARDS & WARRIORS X Fortress Of Fear™

Kuros' most important skill is to jump accurately. To do so, press the A Button.

Press the B Button to extend your sword. To stab, press Up on the Control Pad and B.

Kneel down by pressing Down on the Control Pad. This is handy for narrow escapes!

MAGICAL POWERS

Remember to collect keys and open treasure chests. The items you find will help you reach Malkil for the big fight!

AN EXTRA LIFE

THE SHIELD OF PROTECTION

SOME MAGICAL GEMS

THE POTION OF HEALING

THE SPELL OF INVINCIBILITY

THE BOOTS OF JUMPING

STAGE 1

This stage leads up to the Fortress. Watch out for Bats, Snakes, and Soldiers.

Keep a solid footing so you won't fall in battle!

STAGE 2

Collect as many Power-Up items as you can to prepare for strong enemies in the Fortress!

Your sword is useless against the Skeletons here!

STAGE 3

It's very difficult to keep from falling here. Look out for axes thrown at you!

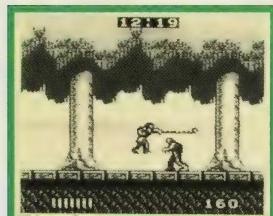

It won't be easy to avoid the Dragon's fireballs!

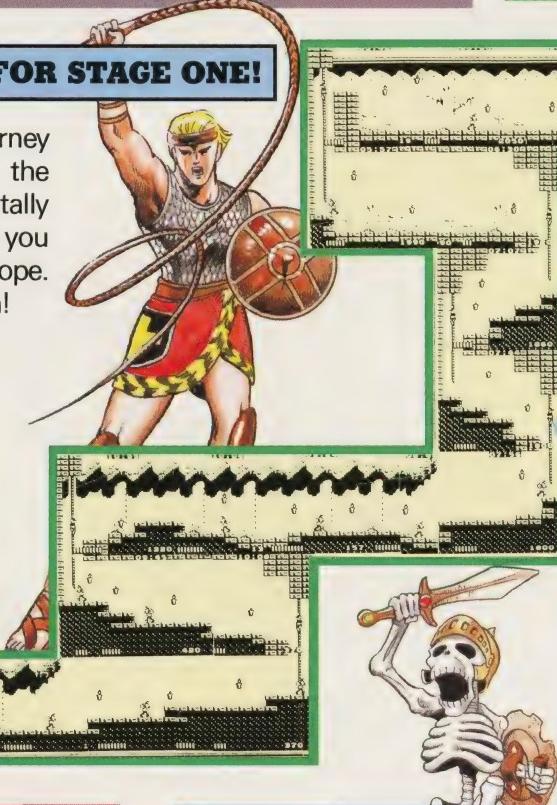

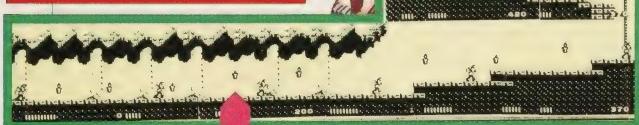

HERE'S THE MAP FOR STAGE ONE!

You begin your brave journey by sneaking through the graveyard. Move horizontally most of the time, but if you need to climb up use the rope. Collect items for strength!

START

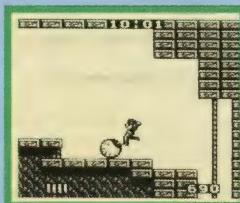

CANDLES are everywhere in this stage, and you'll need them! Your weapon will gain power, and you'll gain extra lives if you whip enough of them.

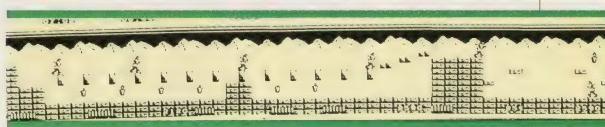

Look out for Evil Eyes!! They are big, and worse yet, they are very tough to beat. But you must! You

are the only one who can destroy the Evil Count!

TO THE BOSS

The platforms drop as soon as you step on them. Leap from one to the other by using your good sense of timing. But watch out! One mistake is one too many!

THE BIG BATTLE

It's time to face THE BIG BOSS! Your weapons should be ready and your power strong from the items you collected. Look out for his tricky moves!!!

NES*

Hardware AND Accessories

Hey, Mario! I've
Kidnapped princess
Toadstool! Heh heh!
Give me that NES, and
I'll let her go!

HELP!
MARIO!

OH NO!
The princess has
been captured
by an evil alien!

All right! Take
a blast from
my Zapper!

This basic building block produces
all the graphics, effects and game
action to play all the exciting and
challenging
Nintendo
games.

CONTROL DECK

Wow! What
an incredible
light beam!

That really hurt!
I'd better get out of
here in a hurry!

The high-tech video gun has built-in light
sensors that interact directly with the T.V.
screen.

NES ZAPPER

Blast it, you
Evil Alien! If you
hurt the princess,
so help me....

Help,
Mario!

Come on!
We'll go after 'em
in our rockets!

Right!

Welcome Mario and Luigi!

Oh, no! Look at all of 'em!

Better switch on the TURBO!

YEOW!
I can't take it!
I surrender!

Oh, thank you! How did you do it, boys?

It's these special controllers!

The NES MAX....

And the NES ADVANTAGE!

The Max features cycloid control with 360° motion and twin turbo buttons for rapid fire.

NES MAX

The Advantage, a full-sized arcade style joystick with a weighted base, features Turbo, for rapid fire, and slow motion.

NES ADVANTAGE

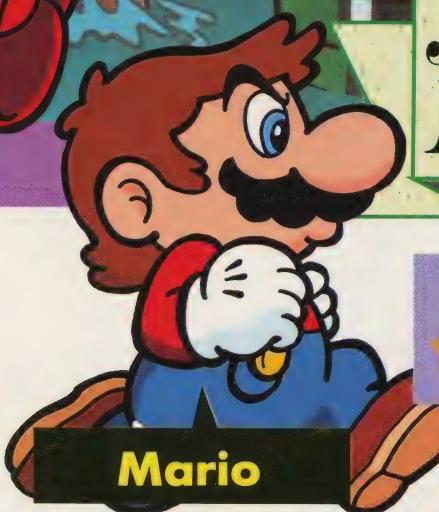

It sure is
good to see
you all playing
together....

At least this
way we have
a chance of
winning!

SUPER MARIO BROS.[®]

*Join Mario In The Magical
Mushroom Kingdom*

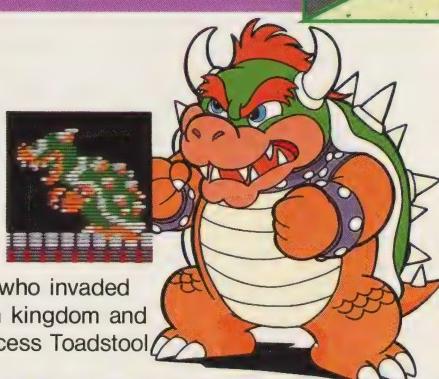

Mario

Mario, that courageous pint-sized plumber from Brooklyn, must find his way through the Mushroom Kingdom, and save Princess Toadstool!

King Bowser

The evil King who invaded the Mushroom Kingdom and captured Princess Toadstool

Princess Toadstool

Presently in the clutches of the evil Bowser, only she can restore freedom to the Kingdom.

Luigi

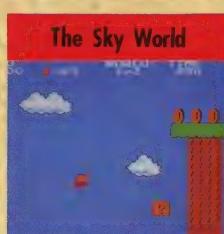

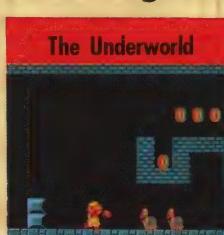

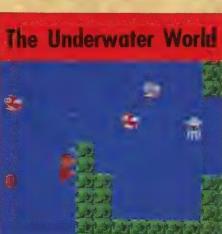

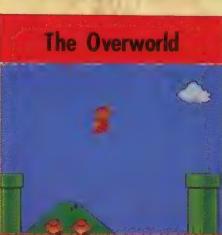

Mario's clever brother and a second hero ready to take on Bowser in the two-player game.

The Wild And Wacky World Of The Mushroom Kingdom!!

Join Mario in his quest to rid the once-peaceful Mushroom Kingdom from some surly, unwanted guests: The evil Koopa tribe! Bowser, King of the Koopas, has even gone so far as to kidnap Princess Toadstool, and now it's up to our hero Mario to rescue her. Of course, it won't be easy. One step in the wrong direction and that's all for our persistent plumber! Here's a look at the different terrain Mario will see.

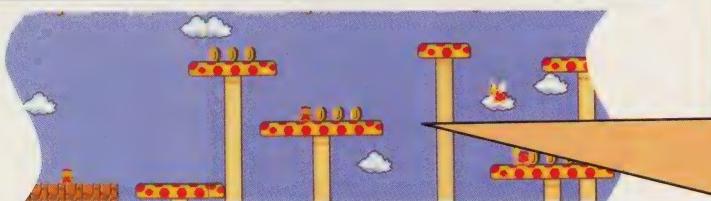

Let's Start The Adventure To Rescue The Princess!

There are many exciting adventures waiting for you. Before you start, we'll teach you some special techniques to help you fight your way through the challenging worlds of the Mushroom Kingdom.

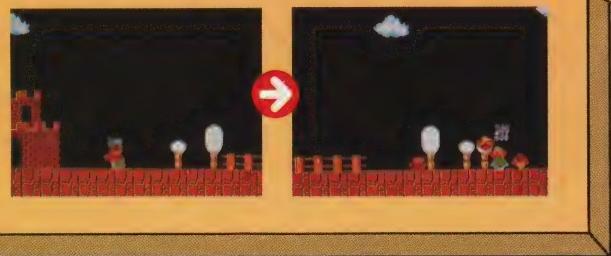

Super Jump

For a long, high jump, push the B Button and speed up before you jump. Use this technique to leap over tall walls or wide chasms. Be sure to give yourself plenty of room to build up speed, or you might find yourself looking for fish at the bottom of the moat.

When you stomp on a turtle and kick it to knock down other enemies, your score will increase with each enemy you bowl over. If you defeat enough of them, you'll earn an extra life. But be very careful when you use this trick! The stomped turtle could bounce back and get you!

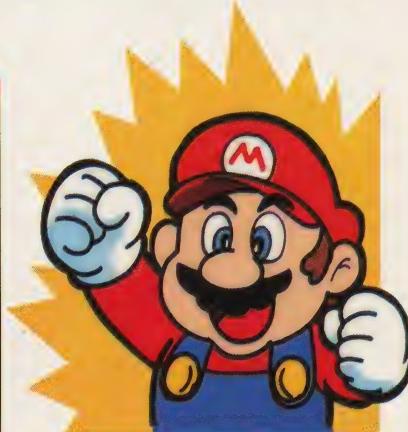

Kick And Run

Set Off Fireworks

You can set off fireworks by jumping on the pole at the end of each level. If you hit the pole when the last number of the time indicator shows 1, 3, or 6, you'll earn extra points!

SECRET TIPS AND TACTICS

Now I'm going to show you the real secrets to winning at Super Mario Bros! Use these tips and tricks, and you'll be bashing that bully Bowser and rescuing the Princess Toadstool in no time!

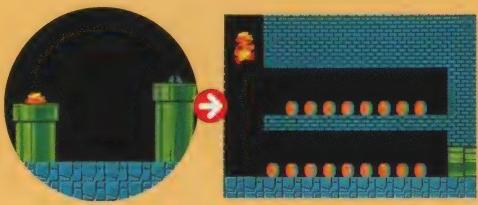

WORLD 1-2

IT'S A MYSTERIOUS UNDERWORLD

THIS PIPE LEADS YOU TO A BONUS STAGE

During your adventure, you see a lot of pipes. Going inside them can be a little scary, but most of the time there are coins down there. And besides, what kind of a plumber would I be if I were afraid of pipes?

TO A WARP ZONE

Wait a minute! Try to jump above the ceiling instead of going into the pipe. This way, you'll find the Warp Zones to Worlds 2, 3 and 4. To save Princess Toadstool as quickly as possible, use these Warp Zones. This way you won't have to fight King Bowser the Great so often. If you use the Warp Zones, you can by-pass some of the Worlds which are difficult to clear. However, each World gets more difficult. If you can make good use of the Warp Zones, you'll be well on your way to rescuing the Princess.

WORLD 2-1

It's a Nice Warm Sunny Day!!

A Hidden Mushroom

You don't see anything, but when you jump, the hidden block appears. Jump up and hit the block to find a coin. Then, jump up on top of the block to hit the block above it. This makes a 1-Up Mushroom magically appear. Collect it and gain an extra life!

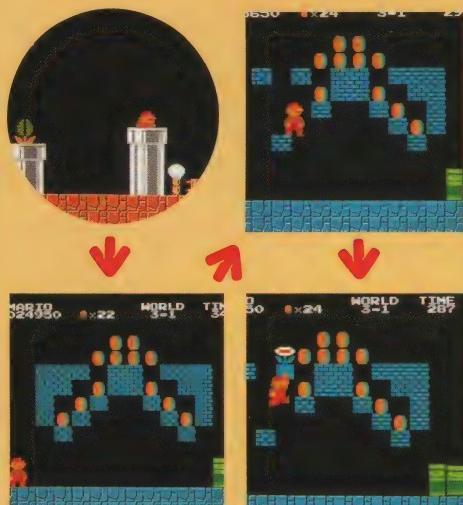

WORLD 3-1

Nighttime In The Mushroom Kingdom!

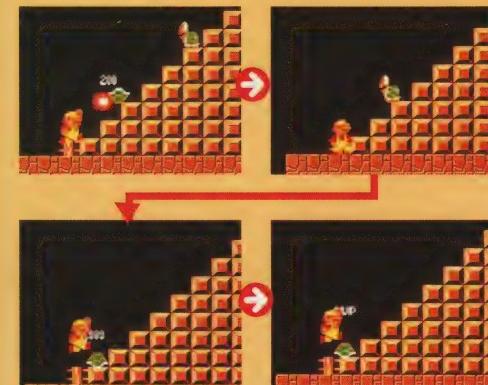

A VERY IMPORTANT BONUS STAGE

There's a power-up Mushroom or Fire Flower hidden somewhere in this room. Be careful to leave the right blocks intact. If you break them all, you won't be able to climb up high enough to get to it!

ENDLESS 1-UPS

There is a way of earning many extra lives just before you reach this level's goal. You'll meet 2 Koopa Troopa turtles coming down the stairway one after the other. Stomp on the first one and kick it away. When the second one comes down to the second to last step, stomp on him too. Here's the important part: Instead of letting him pass, keep jumping on the left side of his shell and kicking him into the stairs. Each time you make the squashed Troopa bounce, you will earn an extra life. It's difficult, but keep practicing!!

WOW!

Check This Out!!

WORLD 3-1

Climb The Beanstalk

Use the Mystery Block to punch the blocks above you. When you jump to hit the centre block, a beanstalk will grow. Climb it and enter the Sky Bonus level. Try to collect every coin here. Remember, when you collect enough coins, you earn a 1-UP!

WORLD 4-2

Two Warp Zones!!

The Biggest Warp Zone Ever!!

The area under this block set is full of hidden characters, including a secret beanstalk. First you must reveal a hidden block by jumping up to punch it. Then jump up on top of it to find another hidden block with the magic beanstalk. Climb the beanstalk and enter the Warp Zone to go to Worlds 6, 7 or 8.

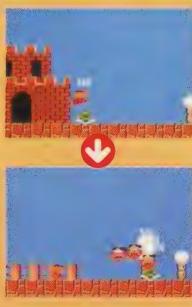

WORLD 5-1

WATCH OUT FOR BULLET BILL!!

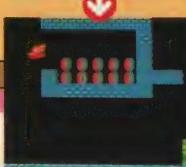

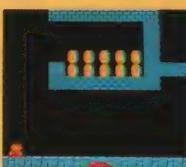

GO FOR AN EXTRA LIFE!!

These flatlands are great for the "KICK AND RUN" attack. You can get an extra life by beating a lot of enemies by running after stomped Troopa turtles. But be careful not to get in the Troopa's way once it's been stomped and kicked! He'll bounce off a wall and come right back at you! This can be one of the trickiest enemy attacks to avoid, because Troopas move very fast once they've been stomped on! Fair warning!

Whoops! How Can I Find The Coins?

You'll reach the bonus stage through this pipe. You're wondering how to get to the coins, aren't you? I knew it! Just follow the diagram to the underground room and collect all the coins. But avoid punching the wrong block. If you do, you won't be able to reach every coin. Also, don't forget the block just above the exit pipe. It may not look like much now, but punch it and it will give you many coins! These are the secrets that make a good player great!

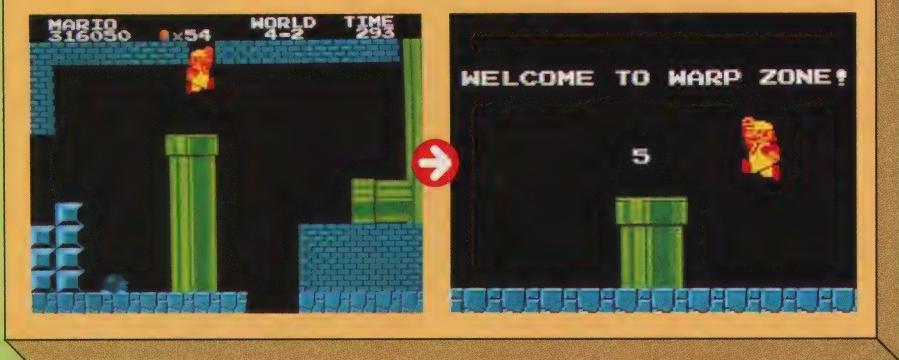

A Warp To World 8!!

Another Warp Zone

If you missed the first Warp Zone, don't worry! There is another one here that will take you to World 5. Be careful on the lift! It's easy to lose your balance and fall into the pit! Remember to give Mario some time to stop when he's running, or you might find yourself running off the edge!

WORLD 6-2

**LET ME SHOW YOU FOUR
NEW BONUS LEVELS!**

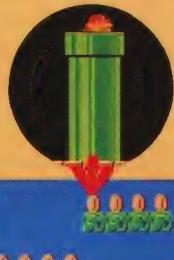

#1

#2

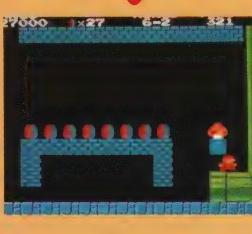

Surprise!! You've found the secret underwater world! Swim around to collect the coins, but don't be greedy! You can be pushed down the drain by the lifts!

#3

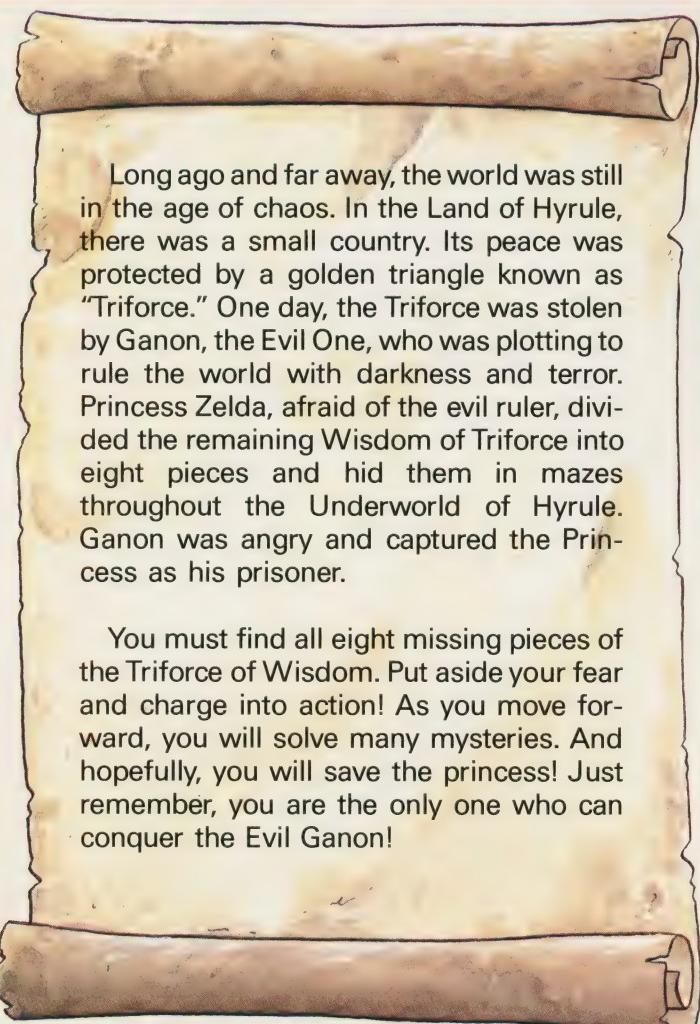

#4

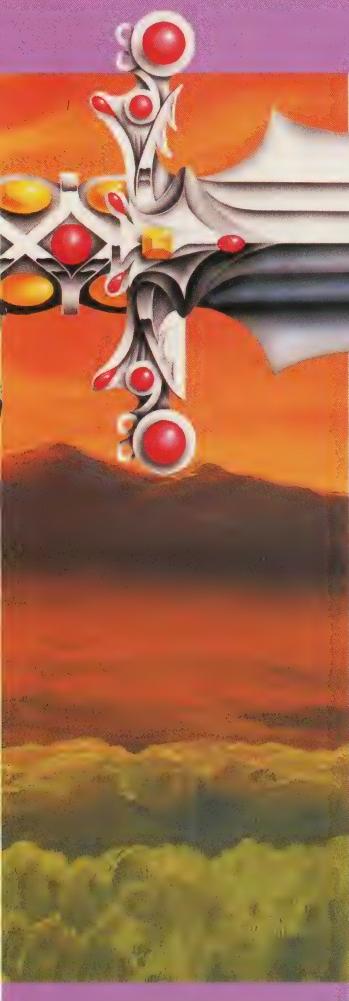

The Legend of ZELDA

LINK

Link is our hero. He alone must bravely fight the evil Ganon to rescue Princess Zelda. Many enemies stand in his way. But somehow he must invade Death Mountain, find Ganon and end his horrible reign! You play the hero . . . YOU are Link!!!

OTHER CHARACTERS

Lucky for you, there are many people willing to help Link in the Land of Hyrule, but they are all hiding because they're afraid of monsters! Some will give you weapons that you will need later in your

adventure, some will restore your life back to full or partial strength, and others will provide you with vital information necessary to complete your quest!

MERCHANTS

Link can find some items in several locations, but he must buy others that are vital to his success, such as the shield, from merchants. He should take advantage of every opportunity to deal with the merchants. Look for one that sells shields in his cave.

LITTLE OLD MEN

Be grateful for these people who give you information, Water of Life, Heart Containers and weapons. You should be careful, though, because some little old men are stingy.

LITTLE OLD LADIES

They provide information and sell Water of Life. Money, called "rupees", and other items are necessary to buy Water of Life. Money is also necessary to buy information. You'll find them living in caves.

FAIRIES

If you beat your enemies and save fairies that they have captured, the fairies can turn white hearts back to red for you. Fairies who live in the fountains can turn all the white hearts back to red hearts with magic. Each red heart you have makes you stronger.

PRINCESS ZELDA

She is held captive in a room in Death Mountain. The Evil Ganon has kept her prisoner there ever since she angered him by hiding the Wisdom of Triforce. Unless you conquer Ganon in battle, you will never save the princess!

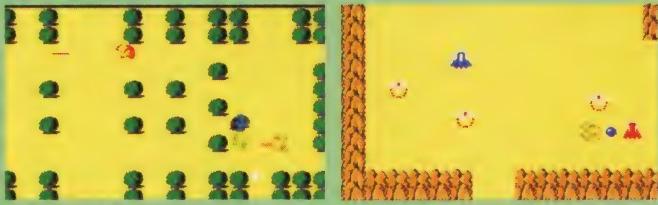

Obtain A Sword!

Link does not possess any weapons when he starts out. At the start of the game, visit the Little Old Man in the very first cave you find to obtain the wooden sword. Later on you will be able to get better swords.

How To Play

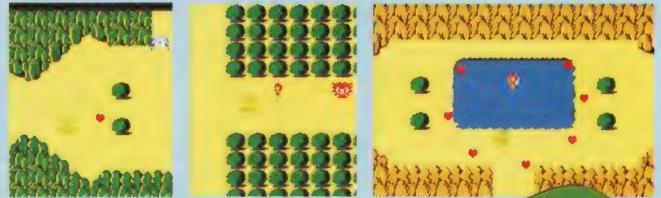

Swing and stab with your sword by using the A Button. When all your hearts are red, you can shoot beams from the tip of the sword at your enemies in the distance. The B Button is used to operate items such as bombs and boomerangs. Use the shield to block an attack when Link is not attacking.

How To Recover From Damage

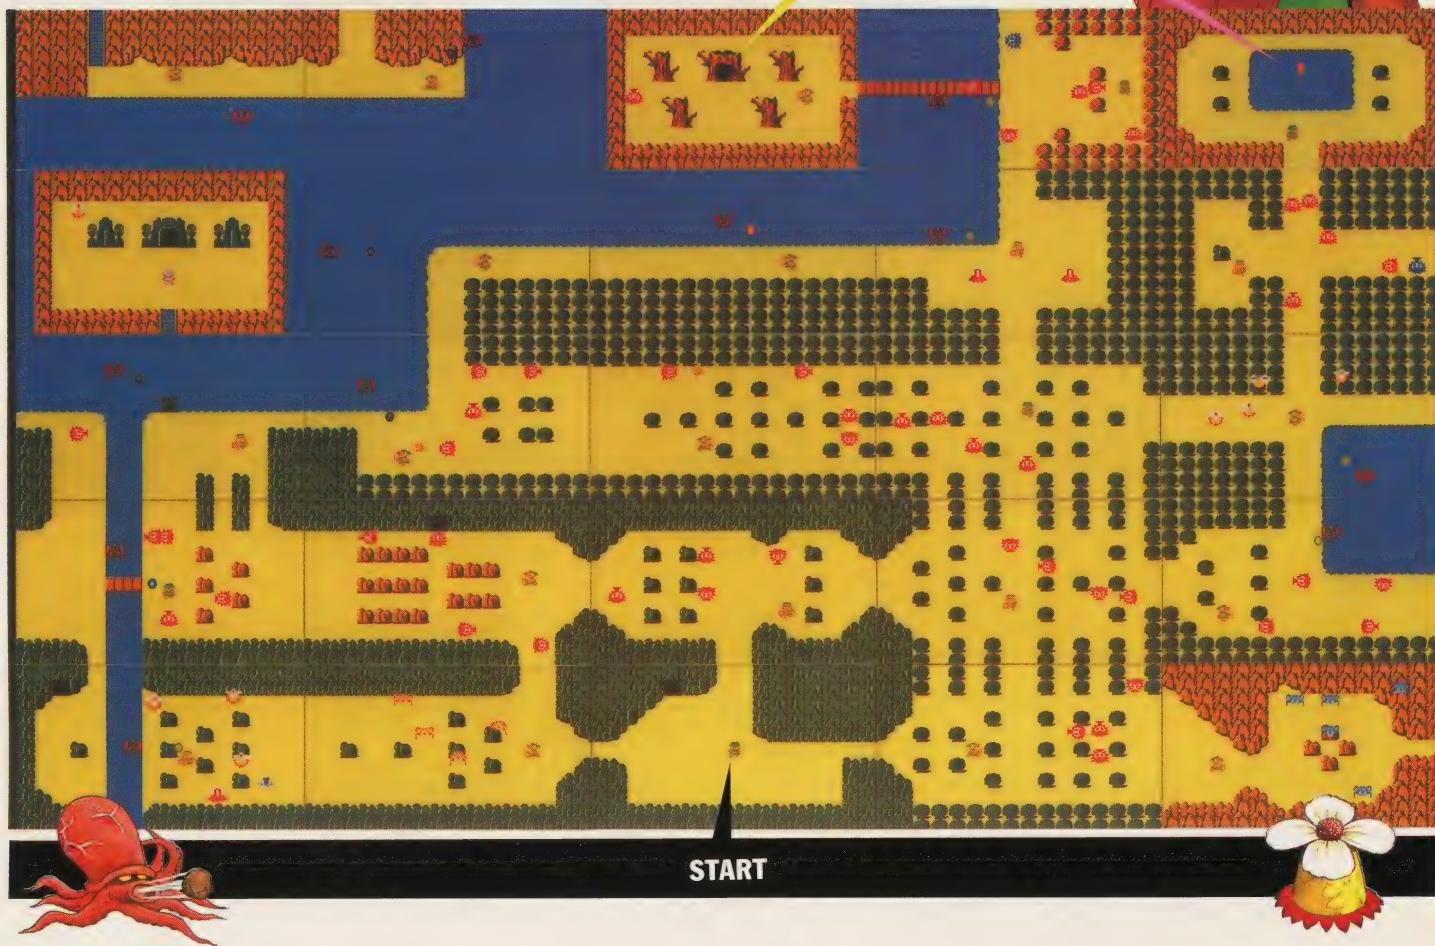

These are the ways to recover from damage inflicted on you:

- *Go to the fountains where the Fairies live for red hearts.
- *Collect the little heart from an enemy you've defeated.
- *Collect the Fairy from the enemy you've defeated.
- *Drink the Water of Life.
- *Collect the Triforce which turns all the hearts red.

MAP OF HYRULE (Part 1)

This map of Hyrule shows the area around the starting point. You'll earn many rupees by defeating enemies here. Use the rupees to buy items.

UNDERWORLD LEVEL 1 EAGLE

The dungeons are excellent places to collect rupees. If you find yourself low on money, come back here and see if you find more.

Getting A Map And A Compass

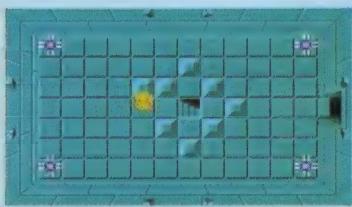

It will be a great help to you if you have a map and a compass when you travel through the Underworld. The map will tell you where you are, and the compass will show you where to find the Triforce. Both of them await you in the mazes, so look for them! It will be well worth the effort!

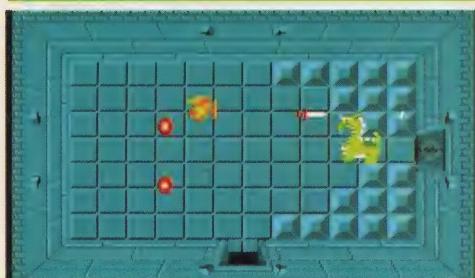

Red flashing points show the place where the pieces of the Triforce are hidden.

Look For The Item!!

If you follow the stairs to the basement, you'll find a treasure room where you can obtain a bow. The entrance to the treasure room is visible, but the way through is difficult. Try pushing the eight blocks to enter.

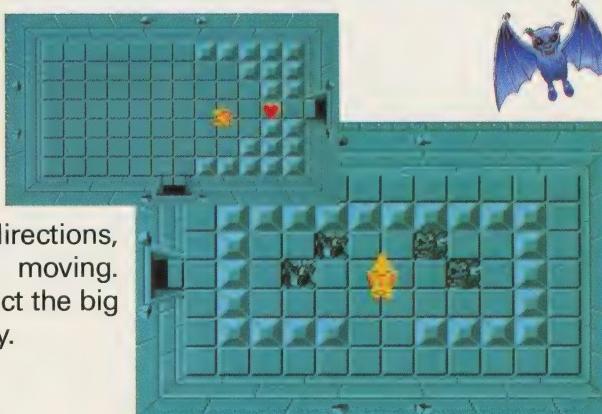

Go For The Triforce!

Aim your sword beam at his head as you try to avoid the beams he shoots at you.

In order to obtain the Triforce, you'll have to defeat Aquamentus, a very strong enemy. He shoots beams in three directions, so you'll have to keep moving. When you beat him, collect the big heart for more life energy.

Look For Hidden Items

CLEAR YOUR WAY WITH THE BOMB

Bombs are not only for defeating enemies, but also for destroying walls and rocks to find secret passages. Not all entrances and exits are visible in the Underworld. Use the bombs to find them. You'll probably use up a lot of your bomb stockpile as you search for the hidden routes. But you'll find it well worth the trouble when you can easily sneak through a secret passage to another area. Get more bombs by defeating your enemies.

Remember, you can get to your destination more quickly by going through secret passages. Sometimes, the only way of getting to a certain room is by finding and using a secret passage.

I T E M S

RUPEES

This is the currency of the kingdom. One might appear when you beat an enemy. A blue rupee is five times as valuable as a yellow one. 255 yellow rupees are the maximum that Link can possess. Spend them wisely!

LADDER

This item of treasure lets Link cross holes or rivers that are as wide as he is. He then has the great advantage of being able to attack his enemies or escape from bad situations by crossing rivers and holes. It is a very convenient item.

RAFT

In the vast Overworld, oceans and lakes block your way. You'll need the raft to cross over them, but you can launch it only from a dock. There are many places you will want to go from the docks, but without the raft you can't get to those places.

MAPS OF THE UNDERWORLD MAZES

These maps keep you from having to worry about getting lost in the complicated mazes of the Underworld. The map of each maze can be found somewhere inside the maze, so try to find it as soon as possible. It is guaranteed to save you a lot of time and trouble!

COMPASS

A compass directs you to the hidden pieces of the "Triforce." Like maps, the compasses await you in the mazes, so look for them! It will be a double advantage if you find both a compass and a map! Then you'll know where you are and where you want to go!

LETTER TO A LITTLE OLD LADY

This is a letter that you show to a little old lady. You can get it from someone somewhere in the Overworld. Sorry, I can't tell you more, except to say that you will use the letter as your identification when you need to purchase certain items.

POWER BRACELET

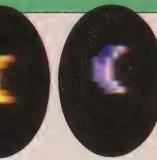

Link can get more power if he finds this bracelet. With it, he can even move rocks, but it is not easy to find. You're going to have to use some of your bombs to uncover a very secret hiding place. Good luck, and use your imagination! You're going to need it!

MAGICAL CLOCKS

A magical clock sometimes appears when you beat your enemies. When it does and you pick it up, your enemies on the screen can't move, so you have plenty of time to attack them! Remember, though, that the clock works only for that particular screen.

WOODEN BOOMERANG AND THE MAGICAL BOOMERANG

These are very effective weapons because with them you can damage weak enemies and you can freeze almost all your other enemies. You can throw the Magical Boomerang farther than the wooden one.

BOMBS

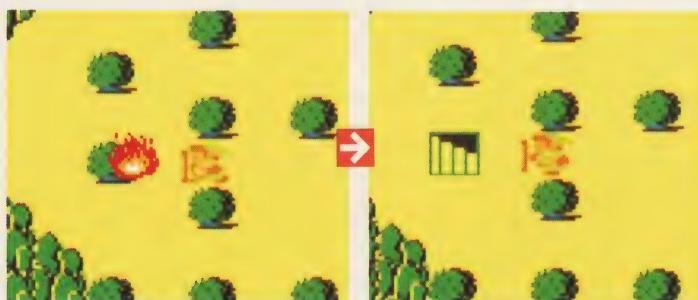

The blast of the bomb is deadly to your enemies. A bomb may appear when you beat an enemy. When you pick it up, you actually get four bombs to use. You can have as many as eight bombs at one time at the beginning of the game.

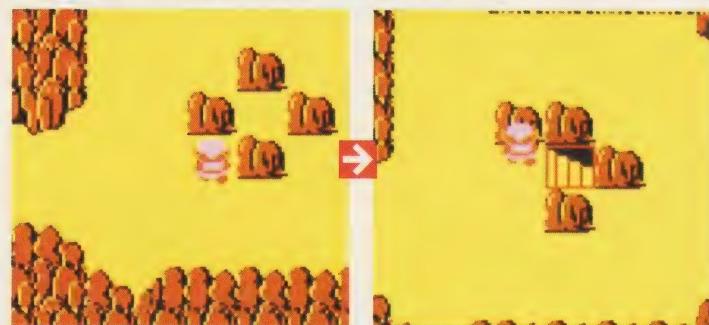

THE SECRET OF THE CANDLE

As you travel along on your adventure in the Land of Hyrule, carry a candle. When you touch a tree with the candle's flame, you may discover that the tree disappears and produces a secret door in its place. This magic doesn't always work, but try it often in many different places. Of course, the candles are also helpful to fight enemies and see better in the dark Underground. You can do this same trick with the Magic Wand and the Magic Book.

THE POWER OF THE BRACELET

Link can get more power if he finds this bracelet. With it, he can even move rocks, and that can help him find the hidden doorway to the Warp Zone! But it won't be easy! The exact location of the Power Bracelet is unknown, so you must strain your wits to locate it. If you do find it, it will be extremely helpful to you.

WHISTLE

This magic item creates many mysteries with its unusual sound. Without it, you cannot complete the game. By playing the whistle to call a tornado, you can warp to an unobstructed entrance to the Underworld. The tornado will also clear your path.

BAIT FOR LINK'S ENEMIES

The bait will allow you to feed a very grumpy Goriya who is blocking your way in one of the Underworld dungeons. Once you've offered the bait, he'll let you pass as many times as you like.

WATER OF LIFE

The Water of Life can be a tremendous help to you. By drinking it, you can turn all white hearts to red. There are two kinds of water: red and blue. When you drink red water, it turns blue and when you drink blue water, it disappears.

MAGIC WAND

Wizzrobe, an enemy in the Underworld mazes, uses this wand. With the Magic Wand, Link can cast magical spells. Link can also use this wand instead of the sword. It is a very valuable treasure useful in fighting enemies.

MAGIC BOOK

Link can learn many magic spells from the Magic Book. Using both the Magic Book and the Magic Wand, Link can cast magic spells to create a flame. The flame can be used like a candle.

HEARTS AND HEART CONTAINERS

Obtaining a Heart Container gives you an extra heart for the game. Heart Containers can turn white hearts back to red, giving you new Life. Life is very important because it is Link's vital power.

THE REGULAR KEY AND THE MAGICAL KEY

You must have keys to open doors in the mazes. The Regular Key can be used only once but the magical key can be used as many times as you want. If you obtain the magical key, the number indication turns to "A", for Almighty.

BLUE RING AND RED RING

These rings are useful when attacking your strong enemies. The Blue Ring cuts in half any damage you might sustain. The Red Ring reduces any damage to one-fourth. You can buy the Blue Ring, but the Red Ring is not for sale.

THE BOW, WOODEN ARROWS, AND SILVER ARROWS

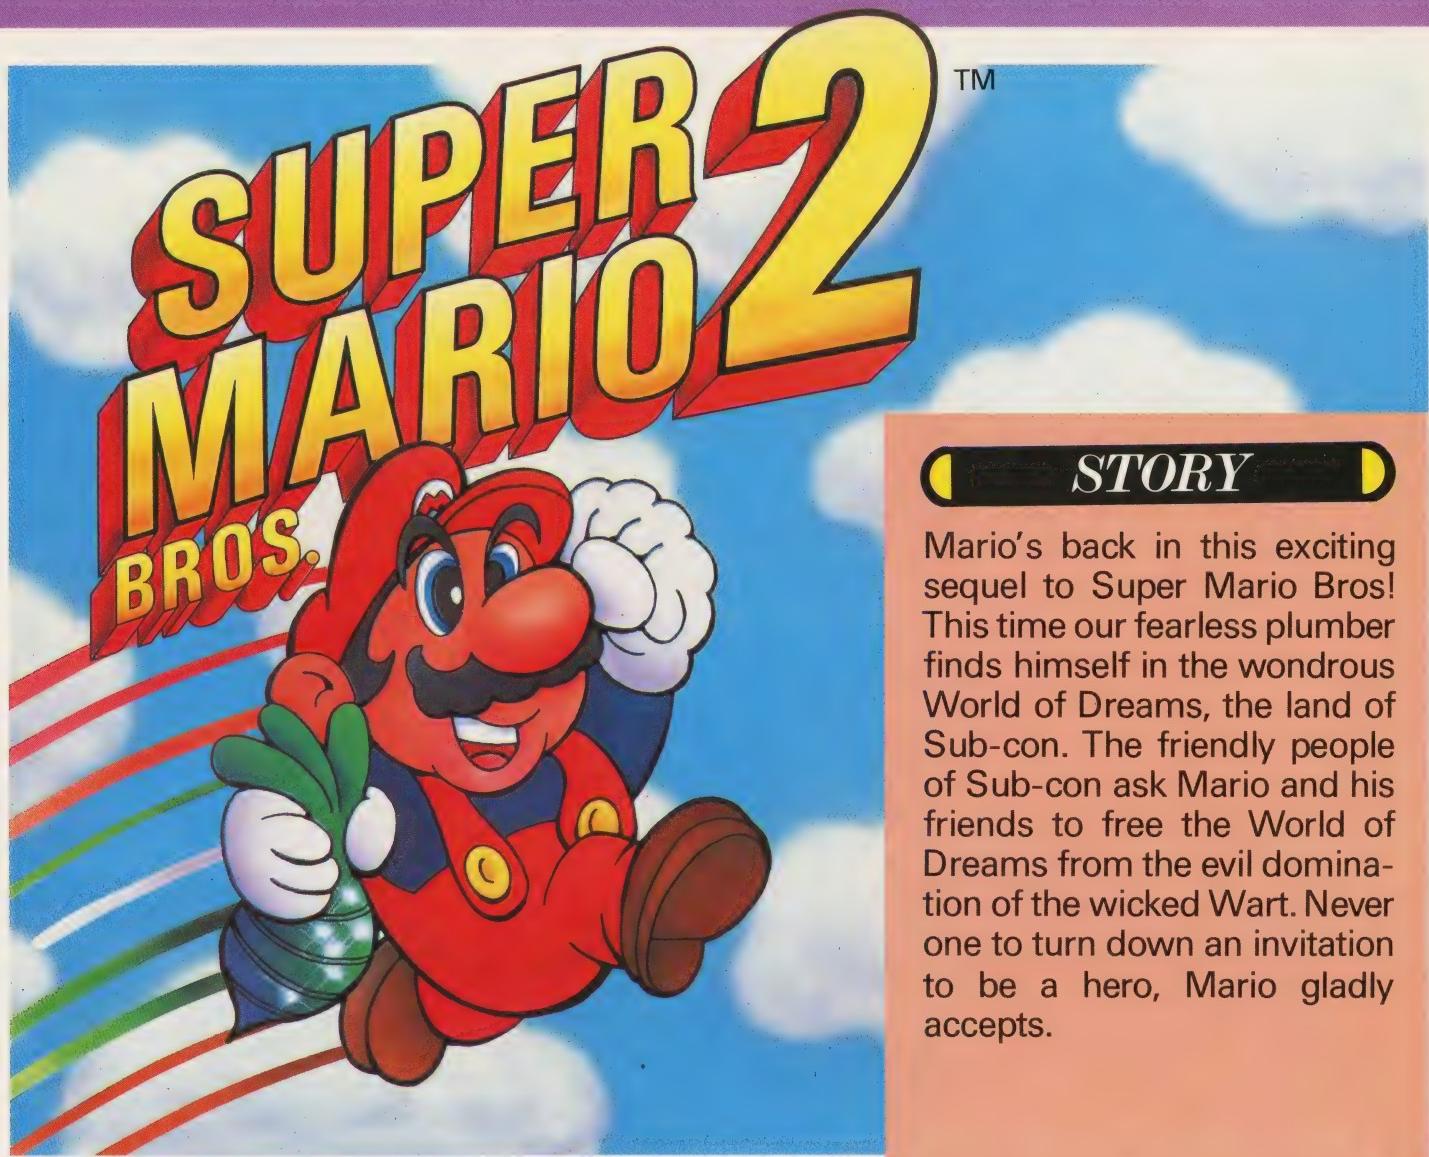

To use the bow and arrows, you must find both. Each time you shoot an arrow you lose one rupee. Some enemies can only be beaten by using arrows. You can buy wooden arrows, but not silver ones.

BLUE CANDLE AND RED CANDLE

These candles light up the dark rooms in the Underworld mazes. The Blue Candle can be used only once but the Red Candle can be used many times within each screen. You can attack your enemies with the fire of the candle.

STORY

Mario's back in this exciting sequel to Super Mario Bros! This time our fearless plumber finds himself in the wondrous World of Dreams, the land of Sub-con. The friendly people of Sub-con ask Mario and his friends to free the World of Dreams from the evil domination of the wicked Wart. Never one to turn down an invitation to be a hero, Mario gladly accepts.

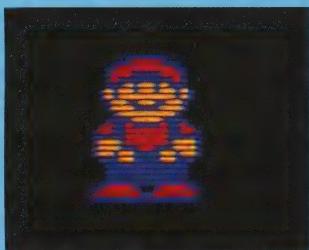

CHOOSE MARIO, OR ONE OF HIS THREE FRIENDS!!!

Super Mario Bros. 2 is unique in that you get to choose which character you would like to play for each level. Each character has his or her own unique abilities and skills, so

choose wisely, depending on the level you are entering. Here is a look at Mario and his pals and what they can do.

MARIO

Mario is the most well-rounded of the four heroes. He runs fast, jumps well, and can pick up items fairly quickly.

LUIGI

Mario's little brother is a real high jumper, but he runs slower and is not as quick when picking up items.

TOAD

He won't win any high jump contests, but he can lift items as if they were feathers! He won't slow down under a heavy load, either.

PRINCESS

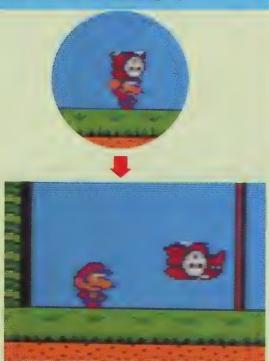

Princess Toadstool is much slower and weaker than the others, but she has magical power that lets her float in the air for a few seconds!

BASIC TECHNIQUES FOR SUPER MARIO BROS. 2

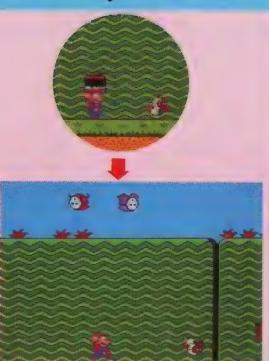

THROW YOUR ENEMIES!

Get on top of your enemy and push the B Button to pick him up. Then turn in the direction you'd like to see him fly, push the B Button again and watch him sail! This is especially fun if you bop another bad guy with him at the same time!

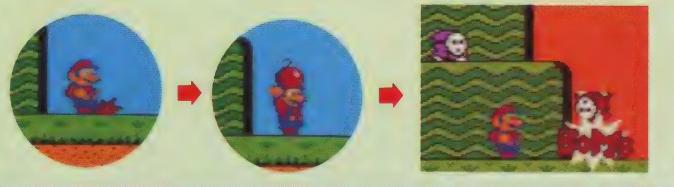

TOPPLE WITH AN EARTHQUAKE!

Using the method of throwing your enemies, pick up the "POW" item and drop it. Now you've done it! You've started an earthquake! There's a lot of major shakin' going on, and your enemies cannot stand up under the pressure!

USE A BOMB TO BLOW 'EM UP!

When you pull out patches of grass, you can find more than just vegetables. You can find bombs! Remember, this is a dream world! Use a bomb to blast a bad guy or get rid of something in your way. Warning: Be careful not to blow yourself up!

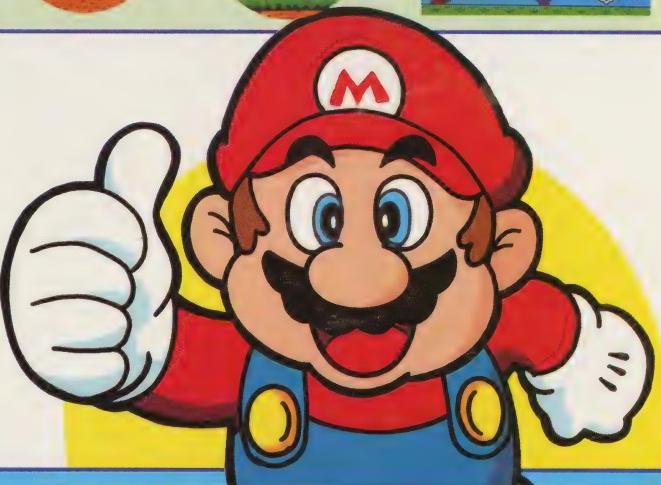

CROUCH DOWN AND JUMP HIGH!

If you want to be a SUPER JUMPER, push the down arrow of the control pad and crouch for a moment. When you start to flash, you'll be able to jump about one and a half times higher than usual! It doesn't last forever, though, so make your jump fast while you've got the extra power.

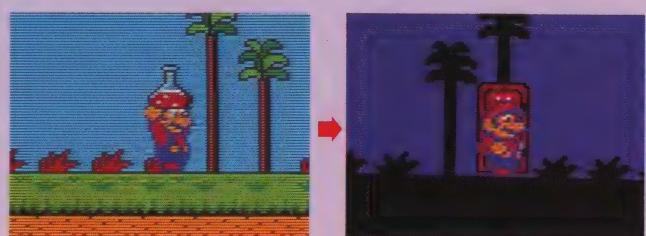

PICK A VEGETABLE AND THROW IT!

Basically, this is the same as throwing an enemy. Stand on top of a grass patch, push the B Button, and pull out a radish or another vegetable. Then, push the B Button again and let the bad guys have it, with produce fresh from the garden!

5-UP AT THE SLOT MACHINE!

If you've made the effort to collect coins in Sub-Space, you can play the slot machine at the end of each level! Using one coin at a time, test your luck and skill at coming up with three cherries. When you do, you'll be a very happy player, rewarded with five extra lives! 5-UP!!

WORLD 1-1

At first, you just happily float down into the World of Dreams. You can get a good idea here how you'll move around. If you open the door below you on the right, you'll get into the real game. Ready, set, HERE WE GO! We're entering the world of Super Mario Bros. 2!

TAKE A GOOD LEAP ACROSS THE LOGS!

This is it! Your first tricky situation! As the logs go floating by, time your jumps just right to hitch a ride to the other side of the river. Don't jump until you see the tip of the first log. If your timing is off and you miss, you'll plunge over the falls to your fate below!

**A****B**

A OR B WHICH WILL YOU CHOOSE?

Path B is a shortcut to the end of this world, but there is a tricky wall you'll need to learn how to bomb if you're going to go this way!

HOW TO BEAT BIG BAD BIRDO!

Birdo is the boss of World 1-1. Catch the eggs he launches by jumping on them and pushing the B Button.

Throw eggs right back at the bothersome bird! Hit him three times and you've got him!

Pick up the crystal ball after beating Birdo and you'll be on your way to the next level.

WORLD 1-2

Now Mario's adventure really takes off! You're flying in mid-air aboard the magic Carpet! Make your trip quick, because you have only a few seconds to get where you need to go! This level will be a little tougher than the last, and you'll need to find keys to unlock an important door.

Ride the flying carpet off into the big blue sky! Look out, though! Hang on tight and don't bump into a bad guy!

Whoops! I forgot to tell you! The flying carpet doesn't last forever, so be sure to make YOUR exit before IT does.

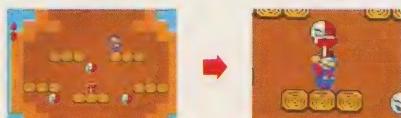

HERE'S A 1-UP MUSHROOM!

It may look like an ordinary jar, but look inside to find a 1-UP Mushroom. You don't want to miss it, but watch out for Tweeter.

GET THE KEY HERE!

If you want to go much farther, you'd better open this jar and grab the key!

USE THE KEY HERE

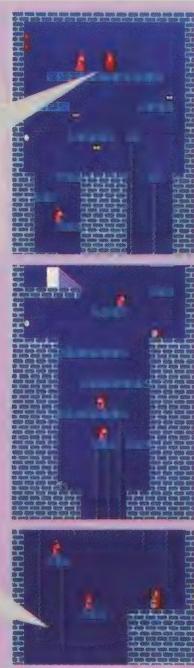

If you don't have the key with you now, you won't be able to open the door. Bring the key!

WORLD 1-3

In this stage, you'll hop over many waterfalls, climb high to grab the key, open a door, then venture across the screen again as you search for the end of World 1.

GRAB A KEY HERE!

WATCH OUT!

If you fall here, the sharp thorns below will surely make their points with you!

GET HIM WITH YOUR BOMBS!

Mouser is the ruling boss of World 1. Defeating him is the first step toward bringing peace back into the world. Catch the bombs Mouser throws at you and throw them back to give him a taste of his own medicine! Hit him three times, and you've got him!

WORLD 2-1

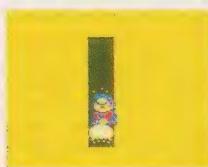

Mario and gang find themselves in the middle of the desert in World 2, and you can bet that Wart has some dangerous fun in the sun planned for them. Boy, don't you wish you had remembered to bring the suntan lotion?

DON'T SINK IN THE QUICKSAND

If you stand in one place too long, the quicksand will pull you under! Keep jumping or press 'A' to cross it quickly. Watch out, though. Sometimes Cobrat hides in the moving sand.

MAKE A HOLE AND PUSH THROUGH

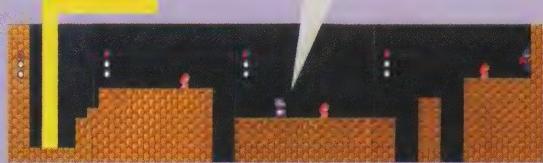

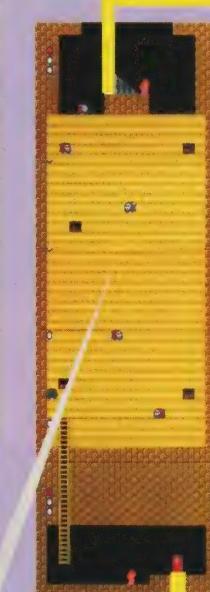

Dig into the tightly packed sand and go go go! You'll want to make it all the way down to the ladder. But watch out for Shyguy, he's coming at you from the side and may pop out into one of your holes. You can pick up some cherries here too along the way.

WATCH OUT! DON'T FALL!

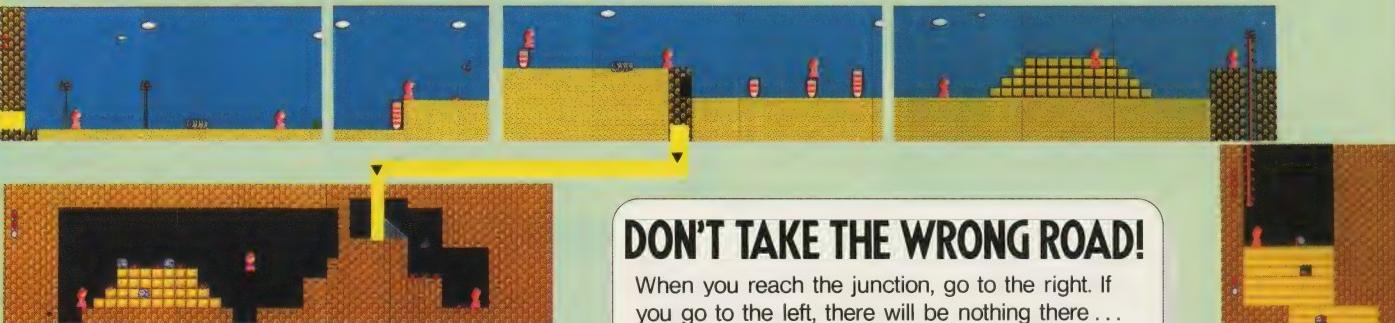

You'll never guess who's the boss of World 2-1. It's Birdo! You're on a cliff, so be careful not to fall when he tosses his eggs.

WORLD 2-2

World 2-2 is not that different from the level you've just come through. If you learned your tricks well in level 2-1 and can use them again here, this won't be very tough. Move as fast as you can across the quicksand and hole-digging areas to make it through in one shot!

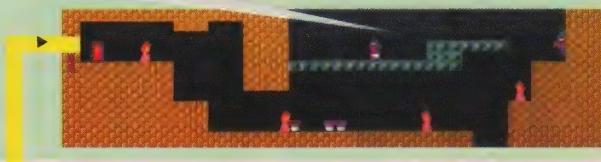

HERE COME BIRDO'S FIREBALLS!

Once again, little boss Birdo is making things tough. This time he's spitting eggs and fireballs. If a fireball gets you, you'll go down in flames. So grab eggs and avoid those fireballs!

DON'T TAKE THE WRONG ROAD!

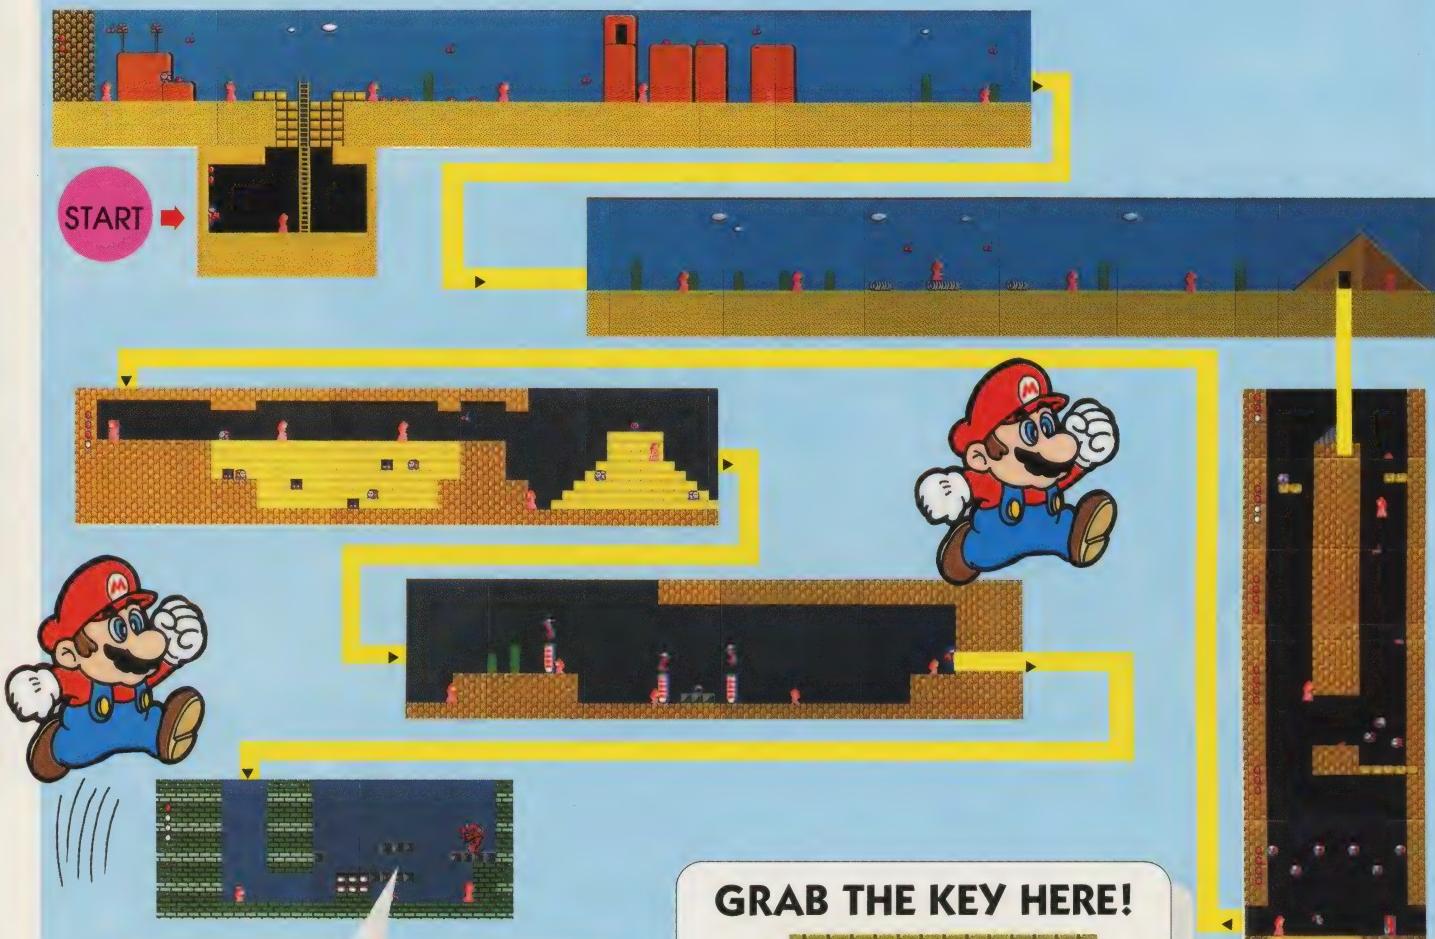

When you reach the junction, go to the right. If you go to the left, there will be nothing there... nothing but sand and a dead end! This area can be deceptive and mean, so be on guard for some tricky critters!

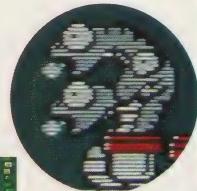

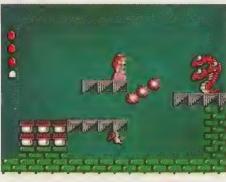

WORLD 2-3

Congratulations! You've made it to the last level of World 2. Rush through the desert and hurry to the pyramid and the deciding battle with Tryclyde, the three

headed, fire spitting-serpent! Don't let your guard down yet! There are still many dangers that lie ahead before you're completely out of the desert!

ATTACK WITH THE MUSHROOM BLOCKS

The boss of World 2-3, Tryclyde, is a tough character. Beat him by showering him with Mushroom Blocks. The blocks can also be protective barriers, so use them wisely. Don't use them up before you're ready! It takes three solid hits to beat Tryclyde.

GRAB THE KEY HERE!

If you miss the key, you won't be able to continue on your quest to save the Princess.

THERE'S STILL MORE TO COME!

We're taking you as far as World 2-3, but there's a lot more adventure left! You can venture as far as World 7-2, which is 14 levels away! That is where you'll finally battle the Evil Wart. He's waiting for you there! Are you ready to take on the rest of the evil forces that have taken over the World of Dreams? I know you are!

HURRY ALONG!

ZELDA II

The Adventure of
LINK

After the Fall Of Ganon ...

Years have passed since Ganon's defeat, and Link has grown since that epic struggle. But much evil still remains in Hyrule.

Princess Zelda knew the secret of the Triforce but refused to tell it to the great sorcerer. He then cast a sleeping spell on her.

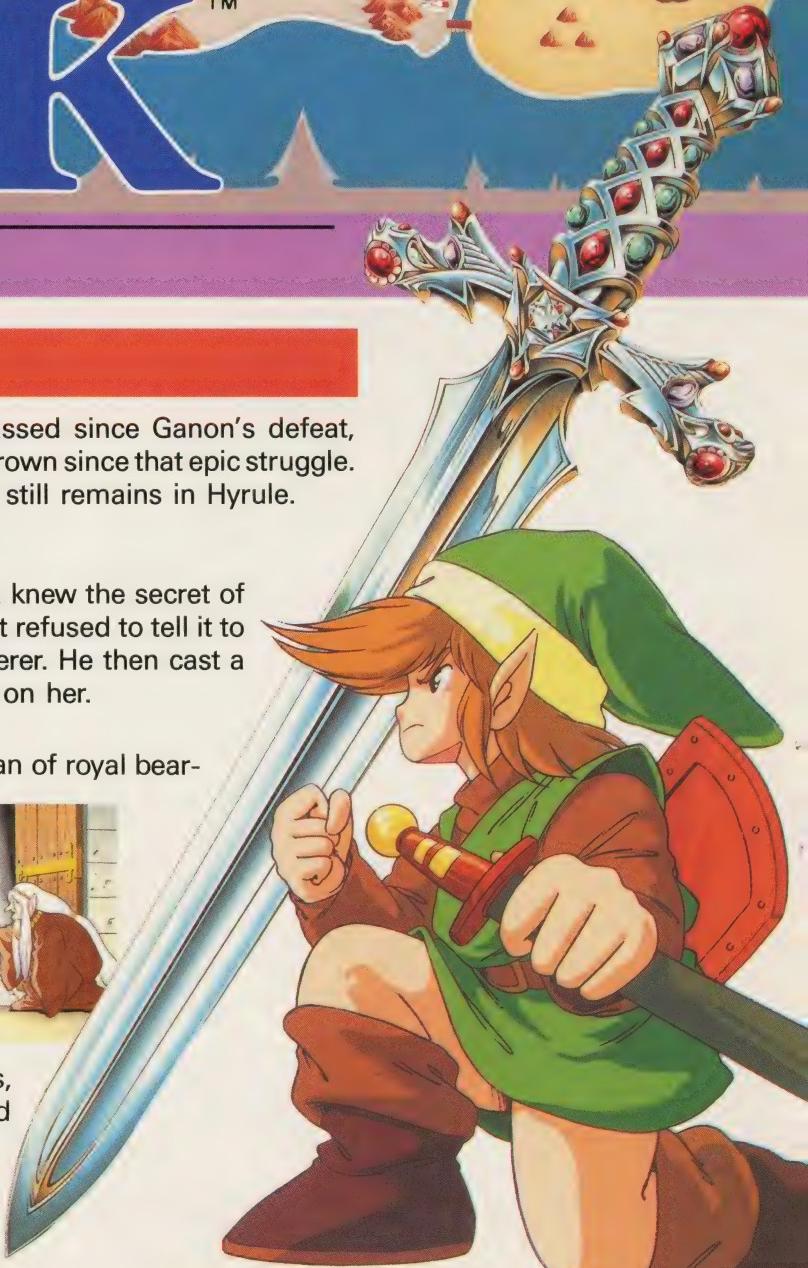

Legends foretold that a man of royal bearing would come to save Zelda and Hyrule,

and his hand would show a mark.

To overcome the evil forces, Link must find the third piece of the Triforce. Wisdom and Power he has already. Now he must find Courage.

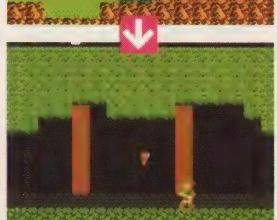

OVERHEAD VIEW

When you meet enemies, the scene will change from an overhead to a side view.

As Link travels through Hyrule, you'll be able to follow his progress on the overhead map. If you run into one of the black enemies, you'll have to fight your way past it in order to go on. The best way to avoid enemies is to stay on the roads wherever possible.

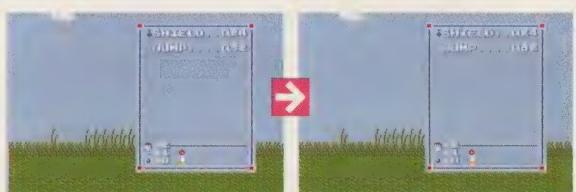

ACTION SCREEN

In battle or town scenes, the action screen will show a side view. To jump, use the A Button. To wield your sword, use the B Button. Pushing the B Button near a towns person starts a conversation. To see a list of magic, push Start. To use magic, push Select.

When you need information or want to check something out, push the B Button.

In the mood to use magic? Just choose one from the list and push the Select Button when you need to use it.

MAGIC

SHIELD

Strengthens Link's defenses. Within one screen, an enemy's blow will fall with only half the force.

LIFE

Dark moments will come when Link is nearly spent. Using Life, he will regain three measures of vitality.

JUMP

Once earned, the magic of the high jump allows Link safe passage over walls and other barriers along his travels.

FAIRY

In narrow places, impassable even to him, Link can magically transform into a flying pixie.

FIRE

In many battles, the magic fire that Link shoots from the tip of his sword will give him the edge.

REFLECT

This powerful magic spell will reflect the evil spells that sorcerers hurl at Link.

SPELL

Casting this spell on particular enemies will make the difference between victory and defeat.

THUNDER

When all seems lost, the magic of Thunder brings hope, for its power affects all enemies present.

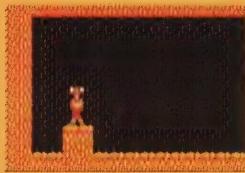

MAP OF HYRULE (Section One)

Do not be deceived! The distances of Hyrule are greater than they first appear. The road is long and fraught with many dangers, but help can be found in unexpected places. This part of Hyrule centres on the North Castle. Desert lies to the north and Northeast. To the Northwest and Southeast you'll find towns.

DESERT CAVE

An important item is hidden here, but it can be very hazardous if you haven't brought a candle with you from the Parapa Palace.

RUTO TOWN

If you have the right items with you here, you'll learn the secret jumping magic!

CAVE

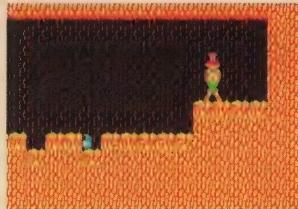

Go beyond the mountain and venture south. To pass, you must carry a candle ... and you'll need to know the jumping magic!

CAVE OF MAGIC CONTAINER

In the far end of this cave is an item that holds the great magical powers. Of course, you'll be in trouble once again if you haven't brought a candle to light your way!

NORTH CASTLE

From the North Castle, the adventure begins! Link sets out on his quest to save the sleeping Princess Zelda. If he fails or chooses to continue his journey later, he must start again from here.

RAURU TOWN

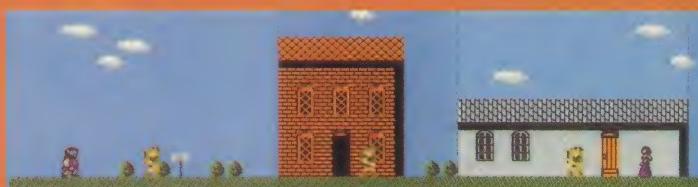

Enjoy your visits to town. The villagers are friendly and don't mind if you drop in. This is your chance to discover much information that will help you later on your quest. You can also find places here where you can gain new lives and learn magic.

When you meet someone in town, why not push the B Button and talk to them? Many will just say hello, but others have a lot to tell you! Be friendly and learn something!

Venture inside this house. You'll meet a boy who has much to tell you. Take his advice!

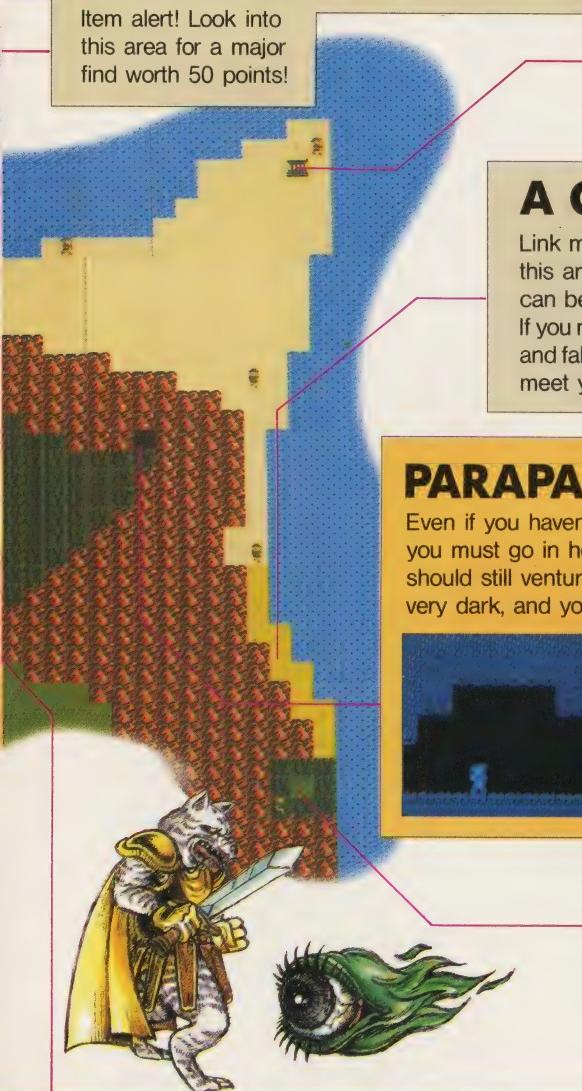

A girl will call you into the house. I'll bet there is something worth investigation here. Go inside and walk all the way to the back room. Keep in mind, good things are often hidden!

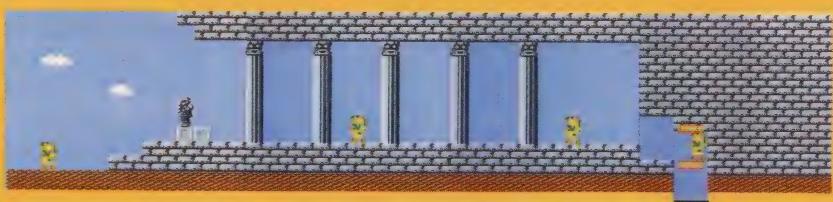

LITTLE WOODS

Item alert! Look into this area for a major find worth 50 points!

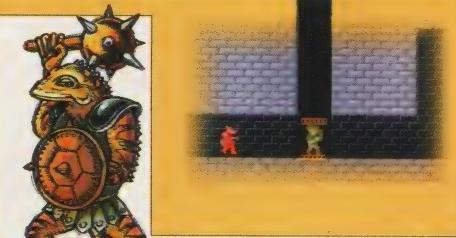

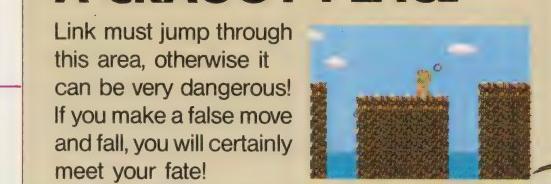

PARAPA PALACE

Now you've arrived at the first palace. Enter and you'll encounter many dungeons and enemies. It's not just the bad guys that will make your journey difficult here; there are also several traps and pitfalls awaiting you. In the palace depths, you must defeat the guardian and place a crystal in the stone statue.

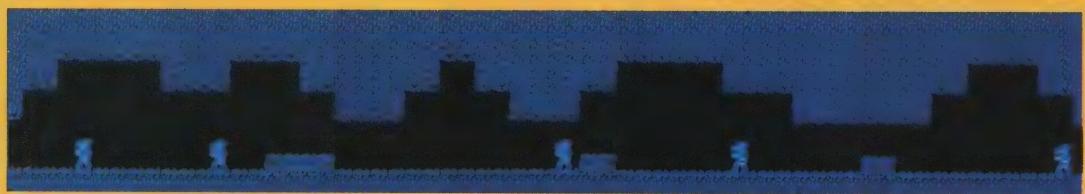

A CRAGGY PLACE

Link must jump through this area, otherwise it can be very dangerous! If you make a false move and fall, you will certainly meet your fate!

PARAPA CAVE

Even if you haven't brought the candle from Parapa Palace, you must go in here. You will face only one enemy, but you should still venture forth with extreme caution. The way is very dark, and you never know what lurks in the shadows!

BIG HEART

Grab the big heart and greatly increase your life. Be on guard, however! there is an enemy lurking nearby who wishes to do you harm!

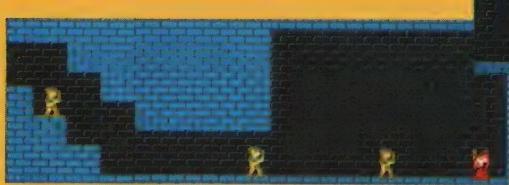

Look for a basement around the back.

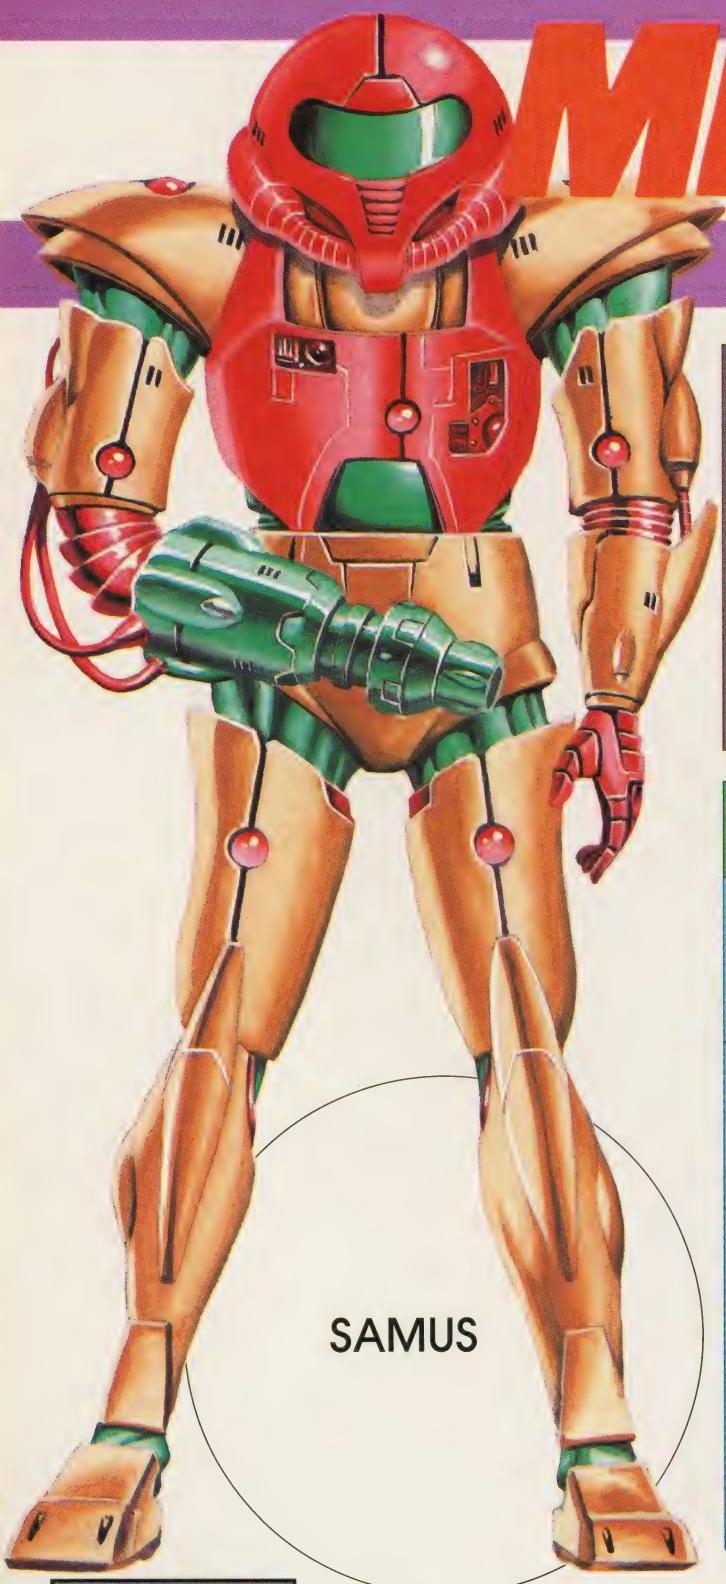

There you will meet an old man. He is very wise. Listen to what he tells you and learn one of the magic secrets you must know!

In this house, you can recover one of your lives. First you must chat awhile with the girl, then follow her inside.

The door opens. Why not venture in and see if there are things to learn?! The boy will give you advice.

START

TM

METROID

THE METROID STORY

Welcome to the year 2000! The galaxy lives in peace and prospers. But wait! Space pirates steal an extremely dangerous life form from a Galaxy Federation ship! METROIDS, those hideous creatures that wiped out life on Planet SR388, are now in the hands of pirates who will use them to destroy the galaxy! The Metroids lie frozen in protective capsules, but soon the pirates will allow them to multiply. Only Samus Aran, the cyborg space hunter, can penetrate pirate headquarters and stop this evil plan! Go now quickly! You must destroy the Metroids!

POWER ITEMS

When the game starts, Samus carries only a short beam. To give more power, look for rooms that contain Power Items.

LONG BEAM 	The range of your energy beam gets longer. You can destroy an enemy from long range, or even one that attacks from above.	ICE BEAM 	This allows you to freeze your enemy temporarily and escape. If you need to reach a high place, just climb your frozen enemies like a staircase!
MARU MARI 	When you start, go to the left. Jump up, cross the high walls, and get hold of the Maru Mari, which is useful for going through walls or narrow passageways.	BOMB 	Samus can use the bomb only while using the Maru Mari to roll into a small round ball. Use bombs to find secret passages in the floors and walls.
HIGH JUMP 	When you put on these boots, you jump one and a half times higher than normal. Now you'll easily grab those hard to reach items!	VARIA 	This is a wonderful item which reduces by half any damage done by your enemies. It's also a help if you fall into the Sea of Lava or fight a Mini-Boss.
WAVE BEAM 	This powerful weapon sends out wave-like beams to destroy your enemies in all directions. It can also penetrate and destroy obstacles in your path.	SCREW ATTACK 	If you jump while running, you start to spin. If you use this strategy, you can destroy your enemies.

Save The Energy Balls!!

Increase Samus' energy level by collecting energy balls from defeated enemies. Each energy ball is worth 5 energy points, but not all enemies will give energy.

MAP OF ZEBES

Zebes is the fortress planet where the space pirates keep the Metroids. It is made up of several fire zones

connected by elevators. The whole planet of Zebes is a huge maze. Secret passages and rooms conceal many items that you must find in order to defeat the Mother Brain.

TOURIAN (central base)

The Metroid Mother Brain is at the centre of Zebes, and is protected by the quickly-multiplying Metroids. Be sure to take the Ice Beam with you when you confront the Mother Brain.

METROID

HIDEOUT I

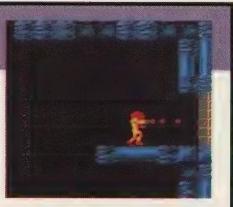

KRAID

Now you must defeat Kraid, the fierce head of the Mini-Boss Hideout. When he attacks, he shoots missiles from his stomach and back. Collect as many missiles and as much energy as you can before you fight with him.

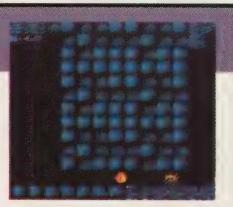

Open The Door With The Gun!

Most doors will open when you blast them with your energy beam, but some require missile explosions.

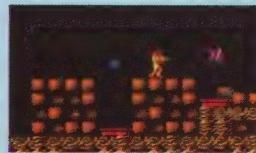

Dash Thru Here As Maru Mari!

Use the Maru Mari to roll into a ball so you'll be able to get by small passages like this one.

BRINSTAR (rocky zone)

Samus' adventure starts here. You'll find many important items, including the Bomb and the Ice Beam. The Bomb will help you fight your enemies with a blast, and the Ice Beam gives you power to freeze!

NORFAIR (fire zone)

You'll go to this area after BRINSTAR. Be sure to find Screw Attack and Wave Beam. You'll need them soon in battle. Your enemies are stronger and more powerful here.

HIDEOUT II

Mini-Boss Ridley is waiting for you in this area. He attacks by jumping in the air and spewing fireballs. To fight him, use the Wave Beam continuously. If you destroy Ridley, you'll win 75 missile blasts!

RIDLEY

TEENAGE MUTANT HERO

TURTLES®

LEONARDO

No reptile wields a katana like Leonardo. Disarm those enemies seemingly just out of reach.

RAPHAEL

The sai specialist. The sai attack field is limited, but Raphael's speed is unmatched.

MICHAELANGELO

He is an expert with the nunchaku, an effective weapon against enemies in lower locations.

DONATELLO

Don's powerful bo is inherently slower but causes more damage than any other weapon.

STORY

What happens when four ordinary turtles get zapped with super high powered radiation? They become Teenage Mutant Hero Turtles, that's what! Fast Action, wild ninja tactics and lots of pizza! Get ready for the heroes in a half-shell!

YOU'LL FIND TWO TYPES OF MAPS

Guide the Turtles and their Turtle Van from a bird's-eye view in the Overworld, until you find entrances to buildings or open manholes. Once inside the buildings or sewers, the action scrolls horizontally, and you maneuver the turtle you have chosen from a side view. The play control is super and the graphics in the action screens are really fantastic!

Bird's-eye View

Action Screen

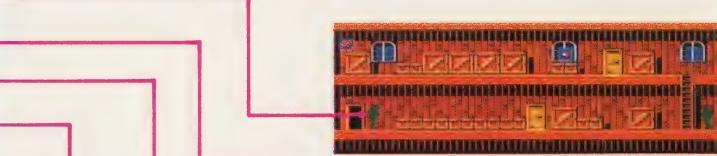

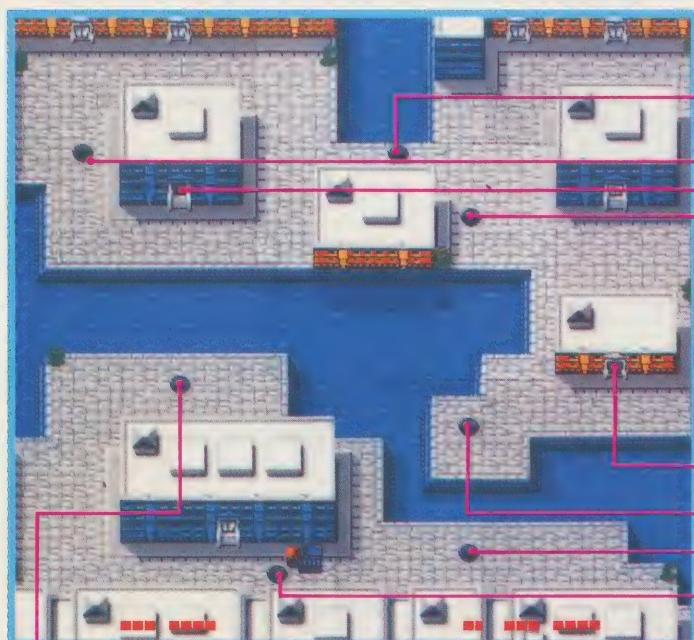

It'll take all your special ninja skills to make it through the sewers.

ITEMS		
BOOMERANG	STAR	PIZZA
This weapon is very effective. Be sure to catch it when it comes back	The Chinese Throwing Star is capable of going through several enemies in a row.	You know Turtles love pizza especially T.M.H.T. In fact, the Turtles featured in the comic book hardly eat anything else. Look for pizza in the Action Scenes to keep your energy levels up.
TRIPLE STARS	SCROLL	
This weapon allows you to throw three Stars. It can damage more than one enemy at a time.	Use this magic Scroll to send a shock wave through your enemies.	

MAP OF AREA I

Here's a quick look at the first stage. Watch out for steam rollers running around—you want to eat pizza, not look like one! It is smarter to use underground tunnels when you move from place to place.

TIPS & TRICKS

Welcome to "Tips and Tricks", where you'll learn a lot of small pointers that will be a big help when it comes to building an expert score! Study the tricky moves and secret clues and you'll amaze your friends!

RACING GAMES

RAD RACER

SPEED AHEAD

It's amazing that you can enjoy this type of powerful racing game in your own home! The world of speed is yours as you flip on the Turbo and experience the thrill of racing at more than 200 kph!! Here's a way to go to any track you want in this cross-country car race. Once you choose your car, press the B Button as many times as it takes to skip over to the track you want. When you've come to it, press and hold UP and RIGHT on the Control Pad. Then press the Start Button to set you speeding on your way to a great time!

Skip ahead to begin a new, exciting leg of your hair-raising race across America!

If you just can't wait to see the big finish to this dramatic race, press the B Button 64 times while you're entering the code shown to the left. Or, keep on racing!

TM&© 1990 Nintendo

R.C. PRO-AM

GET A NEW R.C. CAR BY COLLECTING MARKERS AND SPELLING NINTENDO!

Whatever you do, don't miss the bonus letters!! Be sure to pick up the bonus marker on each track. If you collect enough of these letters to spell "NINTENDO", you'll receive a Super Bonus, plus you'll earn certification to drive a faster R.C. car! A few other tips: Although the Turbo Charger's acceleration is thrilling, it is fatal on corners. You can use the Turbo on the straight stretches of the road but not on a HILL! Also, if you follow right behind a fast car driving at the same speed, you won't be interrupted by other cars as often. Pass him at the high speed corner!

Congratulations! You have a new car! It's changed from a truck to a powerful four-wheeler. Now you can start the next race with a hot new racing machine!

TM&© 1990 Nintendo

EXCITEBIKE

GET BACK UP!!

It's tough out there! The world of racing is highly competitive and aggressive, so you'll probably get knocked down once or twice. If you do bump into a rival motocrosser or make a bad landing from a jump, your bike will overturn. But don't worry! You can get back up fast by hitting the A Button over and over very quickly. This technique will help you earn the best time possible and win the big prize!! In other words, don't let the little things get you down (for long anyway!) and you'll win BIG, BIG!!

You want to beat your friends at this, right? Of course! Then take this tip! Get right back up onto the course by pressing the A Button over and over very quickly.

TM&© 1990 Nintendo

SPORTS GAMES

PUNCH OUT!

DON FLAMENCO GOES DOWN HARD!

Don Flamenco is a crafty fighter and a great dancer, but he has one very big weakness. Just dodge his big first punch, then continue to hit him with Right, Left combinations. He won't be able to recover if your timing's right, and you'll score an easy K.O.!

Now give him the old one-two, and he'll be down in no time.

ANOTHER WORLD CIRCUIT

Here's a trick that will let you get to the Dream Fight a little differently. Enter 135 792 468 and leave the last number at 0. Press the Select Button and hold it down. Now press both A and B. Presto! Little Mac has a whole new challenge in front of him!

Get ready for a brand new story. Entirely new challenges wait for you here to test your skills.

STAFF CREDIT

You can watch the end credits without ever even playing the game! Enter 106 113 012, and leave the last number at 0. Press and hold the Select Button, then press A and B at the same time. There you have it!

TM&© 1990 Nintendo

GOLF

CLUB TYPES AND DISTANCES

All set to tee off? You're going to love the great game of Golf, Nintendo-style! It may even help you play better the next time you try the real thing! This chart tells you how far you can expect the ball to go, depending on your club choice and the condition of the course.

Give the team from Kenya a chance for the gold.

FRANCE

2nd Day	2R1+☆4ZGG
3rd Day	→RLKQ3ZDG
4th Day	2H1+☆3ZGG
Final	→R1KQ4PGG

Send France into the last day.

JAPAN

2nd Day	111+☆4ZXG
3rd Day	111+Q3ZXG
4th Day	1LL+☆3Z6♡
Final	11LKQ4PXG

Bring the Japanese team victories in every event.

ACTION & ADVENTURE GAMES

MEGAMAN

DON'T BE HASTY!!

In some stages, your enemies will attack you constantly. You'll know what I mean when you get to the Bombman stage! Here's some advice: Instead of running away from your enemies, try to pick up as many power-up items as you can by facing your enemies and defeating them. The items will be useful later, and if you're lucky, you may even collect a 1-UP.

Be careful when you beat this enemy. If you're too close, he could explode and hurt you!

Patience is a virtue! Especially here! If you take your time and wait here long enough, you could collect a 1-UP.

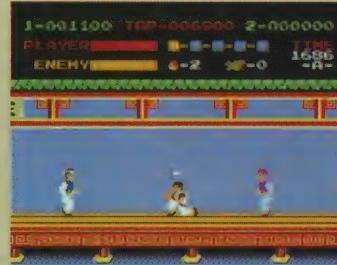

You can collect a power-up item here, but watch out! Enemies will try to stop you!

TM&© 1990 Capcom

KUNG FU

SECRET POINTS

Use this trick to earn extra points on every floor! When you start, defeat your enemies until you reach the twelfth one. If you beat him with a jump kick, you'll receive 5000 bonus points. The enemies that you throw over don't count, so attack only with punches or jump kicks. If the twelfth guy is a Knife Thrower or Tom Tom, let him pass... your points won't count.

The big bonus target is the twelfth man. But it won't be easy! While you try to defeat your enemy and win the 5000 bonus points, you'll have to dodge an attack from a Knife Thrower!

GOONIES II

LIGHT UP THE ROOM WITHOUT THE CANDLE

If you want to see anything in a dark room, you usually need a Candle. But not always! There's a secret way to light up a room with the Hammer when a Candle isn't handy. Choose the Hammer from your assortment of tools and push the A Button repeatedly. The timing can be very tricky and you might have trouble getting it to work, but keep trying! You'll get better with practice! This technique might be easier if you use the NES Advantage.

Light from a hammer?

TM&© 1990 Konami

WIZARDS AND WARRIORS

SEARCH FOR INVISIBLE DIAMONDS!

Throughout the game, you will find places where hidden Diamonds keep appearing on the screen as you jump. When you find those secret spots, keep jumping and collect all the Diamonds you can. Also, look for the secret passageways to the secret "Diamond Rooms" where you can collect many Diamonds.

Keep jumping right here for more Diamonds.

JUMP ONTO THE BUBBLE!

On the Stage 3, Fire Cavern, in order to reach to the upper section, you'll have to ride the bubbles coming from the volcano. Wait at the bottom of the screen, and the bubbles will appear from below. Jump onto one of them and ride on it all the way up.

Just wait there until the bubbles show up.

TM&© 1990 Acclaim

CASTLEVANIA

THROW THE WEAPON WHILE KNEELING

Try this special battle technique using the NES Advantage. Hold the joystick down to make Simon kneel. Then, while you move the stick up, push the B Button at the same time. This way, you can make Simon throw the weapon while still kneeling down.

LOOK FOR HIDDEN BONUS ITEMS!!

Besides the items that come out of the Candle, there are hidden treasures scattered throughout the Stages. The first one will appear when you jump over the castle's entrance and reach to the right edge of the screen. You can find another bonus by breaking blocks on the floor after you enter the castle.

Be sure to jump over the entrance way for the precious bonus item.

Break the blocks with your whip. There are many bonus items hidden. Try other places, too.

GRADIUS

POWER UP

Here is a code to supercharge your Warp Rattler with options, barriers and missiles. Press Start to pause, then press Up, Up, Down, Down, Left, Right, Left, Right, B, A, and release the pause. You can use this only a limited number of times; up to the total number of times you destroy the Big Care plus one.

"CONTINUE" COMMAND

The "Continue" command allows you to start where the previous game ended. To activate the "Continue" mode, press Down, Up, B, A, B, A, B, A, while the screen shows "Game Over". Then, just hold it there, to start where you left off.

WIN BIG WITH RAPID FIRE!

With a faster firing weapon, you can defeat a great number of enemies all at once. Collect six capsules, and the indicator will show a "?" mark. Take a 7th capsule when the 4th digit from the right in your score is 0. If you want to fire even faster, try using the NES Advantage.

Now, to use your Rapid Fire, hold down the A Button and watch the laser beams fire at super speed!

TM&© 1990 Konami

LIFE FORCE

DON'T MISS THE OPTION!!

When the Option-equipped Vic Viper is defeated by the enemy, the Option will start floating toward the left side of the screen. When a new Vic Viper appears from the left, move quickly to grab the Option. Now your new Vic Viper is fully equipped and ready for the fight!

HIDDEN BONUS POINT

Throughout the game, you'll find many secret places where you can earn extra bonus points up to 5000 or where a 1-UP capsule is hidden for an extra life. We will show you the six places on Stage 1 and Stage 2 for those extra points here. But for other stages, you'll have to rely on your own finely-honed detective skills to turn up the secret 5000 points!

When a pair of Death Hands approaches you, go forward and come right back again.

Cut through the web and go just above the centre of the screen for a 1-UP capsule.

You'll find the bonus points right behind the second Belbeim.

Destroy near the bottom part of the wall. Proceed until you reach the end of the wall for a 1-UP.

TM&© 1990 Konami

JOURNEY FROM THE TOWN OF JOVA

Your adventure begins in the little town of Jova. If you charge off to find the parts of Dracula without talking to the people here first, your efforts will be fruitless. Be sure to collect as many hearts as you can. You'll need them to buy invaluable weapons. But hearts are not easy to come by. You must earn them with courage and skill as you do battle with Dracula's legions.

BUY THE THORN WHIP

You must buy the Thorn Whip as soon as you collect 100 hearts. Until you buy it, stay in town and fight with Zombies at night.

GO VISIT THE CHURCH

If you run out of energy, take refuge in the church. It will replenish your strength and bolster your courage. Talk to the priest here.

GAIN CLUES THROUGH VILLAGERS

You must be alert to everything the townsfolk say if you hope to succeed in your quest for the gruesome parts of Dracula. Without help, you are finished. These folks are wise and have their own stories to tell.

Collect as much information as you can by listening to many people. When you meet a person, press the B Button to talk to him or her.

BUY THE WHITE CRYSTAL!

The White Crystal is your first step towards attaining magic power. Be sure to get this item early on in your journey.

BUY HOLY WATER

With the Holy Water, you can break the walls and floors where important items are hidden. Be sure to buy this before going very far in your quest.

Scanned by Melora for History of Hyrule

historyofhyrule.com
melorasworld@gmail.com

Hey everyone! I'd personally be really happy to see you make scanlations or take portions of this and make fun things and posts with it. The only things I ask are:

1. Try to link back to **historyofhyrule.com**, somewhere, somehow, for credit. This is so people can find more info and other works, reach me if they have questions, or want to contribute other content. It's actually how I've found out about so many of these things and been able to get them to you in turn.
- 2: Please don't just re-upload the whole set somewhere else. This is in case it's re-released officially so I, and my site, don't come into conflict with any publishers or artists for making scans. (Or, if you do use the whole set, because you've made scanlations, just don't use them commercially and take the full set of my scanned images down if you ever hear about a re-release.) In the 20 years I've been doing this I have never once left scans up if something comes back into print again. I only do the scanning work I do because, as an enthusiast, I don't want something that is actually out of print and rare to be lost forever.

Thank you for understanding!
-Melora
